Introduction

This codebook describes the *Scientific Use* dataset of the AUTNES candidate survey conducted after the national parliamentary election of 28 September 2008. The dataset is based on a written census survey of the 4,081 candidates for the National Council election. The survey's return rate was 28.6 percent. Fieldwork was conducted from December 2008 – Mai 2009 by a team of researchers at the Department of Government at the University of Vienna. The Principal Investigator of the AUTNES candidate survey 2008 was Univ.-Prof. Dr. Wolfgang C. Müller.

Funding / Acknowledgments

The survey was carried out under the auspices of the Austrian National Election Study (AUTNES), a National Research Network (NFN), and was sponsored by the Austrian Science Fund (FWF) (S10903-G11).

Conditions of Use

See the AUSSDA Dataverse (https://doi.org/10.11587/JF64YW) for the Terms of Use of the data.

Confidentiality

AUTNES is bound by Austrian data protection regulations to safeguard the anonymity of survey participants. The dataset therefore includes no biographical information which could, on its own or in combination with other data, expose the identity of survey participants. In addition, AUTNES data users commit themselves in writing, (a) not to undertake attempts to uncover the identity of single cases in the dataset, (b) to use the dataset only for the purpose of scientific research and (c) to safeguard the dataset from unwarranted usage by other persons.

AUTNES, the Principal Investigators and the funding institution bear no responsibility for the use of the data or for interpretations or inferences based on their use, nor do they accept liability for indirect, consequential or incidental damages or losses arising from the use of the data.

Deposit Requirement

In order to facilitate exchanges within the scientific community and to provide funding agencies with essential information about the use of archival resources, AUTNES data users are requested to notify the AUTNES team of all publications referring to AUTNES data.

Acknowledgement of the data

Users of the data are kindly asked to acknowledge use of the data by always citing both the data and the accompanying release document.
