1. Introduction

This report accompanies the Digitize! Comparative Study of Electoral Systems Post-Election Survey 2024 conducted by Digitize! Online Panel Survey and provides a detailed documentation of the data collection. [1]

The survey's questionnaire is based on the Comparative Study of Electoral Systems (CSES) Module 6 and focuses on the Austrian National Parliamentary Election held on 29 September 2024.[2]The questionnaire was extended by country-specific and other relevant questions which are covered in this version (SUF Edition).

1.1 How to cite this data

Data users are kindly asked to acknowledge the data and the accompanying documentation. Please cite the data and documentation as follows:

2. Conditions of use

2.1 Restrictions

The data are available under the terms listed at the AUSSDA Dataverse.

2.2 Confidentiality

The Digitize! project, its Principal Investigators, and the funding institutions neither take responsibility for the use of the data or interpretations and inferences based on their use, nor do they accept liability for indirect, consequential, or incidental damages or losses arising from use of the data.

2.3 Deposit Requirements

To facilitate exchange within the scientific community and to provide the funding agencies with essential information about the use of archival resources, users of the Digitize! survey data are asked to notify the Digitize! team of publications based on its data.

4.1 Recruitment Procedure and Sampling

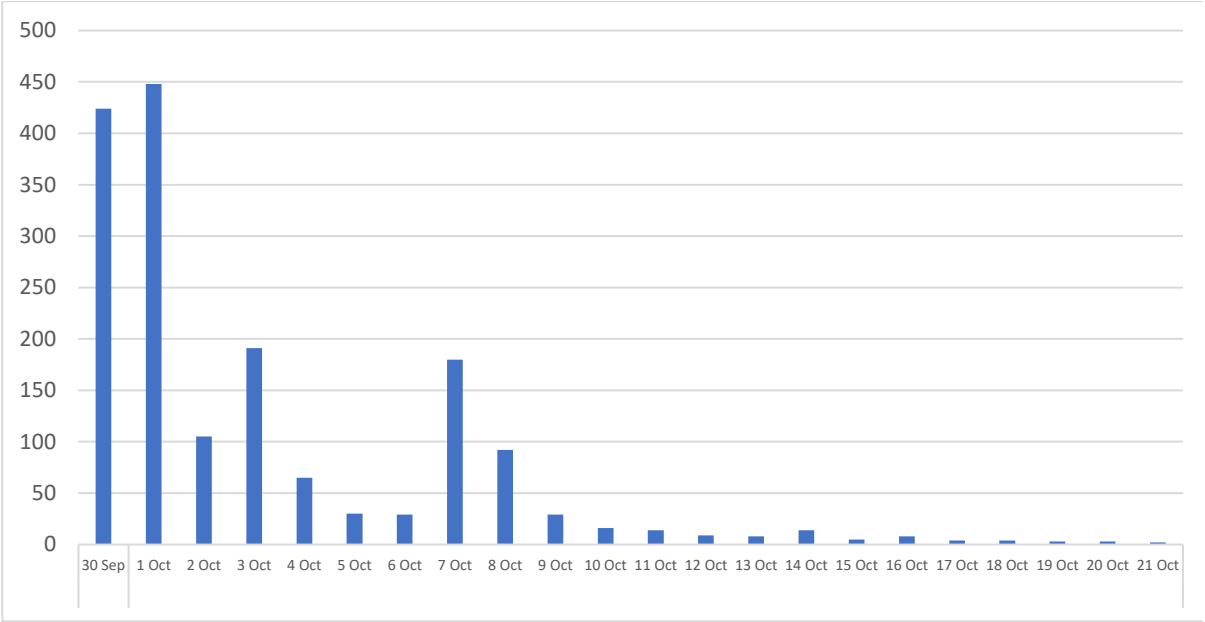
The Digitize! Online Panel is a probability-based panel. All participants were recruited through prior online surveys conducted as part of the Digitize! Online Panel Survey within the Digitize! Project. This project employs a probability-based sampling method, drawing addresses from residents aged 16 and above from Austria's Central Register of Residents (Zentrales Melderegister, ZMR), with sampling stratified by region (NUTS3).

Only respondents who indicated in their recruitment survey that they hold Austrian citizenship were eligible to participate in this survey. The population universe comprises eligible voters for the Austrian Parliamentary Election on 29 September 2024 (Austrian citizens, aged 16 years and older at election day). The survey was terminated for respondents who reported being under the age of 16 on 29 September 2024.

4.2 Fieldwork

The survey was administered by means of computer-assisted web interviewing (CAWI). The fieldwork took place between 30 September 2024 and 21 October 2024 (22 days in total, see Figure 1: Number of interviews conducted per dayFigure 1). In total, n = 1,683 interviews were successfully completed. This results in a response rate of 45.2%.

Figure 1: Number of interviews conducted per day



On 30 September 2024, 3,723 panelists of the Digitize! Online Panel were invited via email to the online survey. All panelists, who had not yet participate, were sent a reminder on October 3. A final reminder was issued on 7 October 2024, targeting only panelists aged 65 and older, as well as those with lower levels of formal education. The survey officially closed on October 21, 2024.

After the completion of the online survey, all panelists were given the option to receive a €5 SPAR supermarket voucher, which they could choose to download directly or have sent via email. To encourage greater participation among younger individuals, a random subsample of panelists under the age of 25 was selected to receive a higher incentive payment. These 232 individuals were informed in their email invitation that they would receive a €10 SPAR voucher upon fully completing the survey (IN16 = 2 / "double").

4.3 Ethics and Data Security

The Digitize! project fully complies with Austrian and EU data protection standards and is subject to ongoing legal and ethical evaluation and advice.

The Ethics Committee of the University of Vienna stated that there is no ethical objection to conduct the survey. The random selection of address data for the purpose of scientific research (§ 2d Abs 2 FOG) was carried out in strict compliance with Austrian and EU data protection requirements. Moreover, the implementation of the survey via the survey software Qualtrics and the storage of the

data comply with the principles of the General Data Protection Regulation (GDPR). Information is only processed on servers located in the European Union. The data is processed and stored in such a way that it is not recognizable from which person the data originates. This encryption is called pseudonymization (see also Article 4 number 5 GDPR).

Compliance with the data protection principles in all steps of the survey was also confirmed by the data protection officer of the University of Vienna.

Before starting the survey, respondents had to agree with the informed consent as stated below:

Detailed information about the Digitize! survey is also provided to respondents on the survey webpage https://digitize-transformation.at/umfragen. Amongst others, the webpage contains a subsection answering frequently asked questions about the survey, data protection and deletion, or the option not to be invited again to the survey. Respondents could also contact the research team via e-mail. Both possibilities of receiving further information were mentioned in the Invitation letter.

The wording of the informed consent at the beginning of the survey read as follows:

> *Digitize!* arbeitet selbstverständlich auf Basis der österreichischen sowie unionsrechtlichen Datenschutzbestimmungen und hat sich zur Einhaltung der internationalen ESOMAR-Richtlinien (Schutz der Privatsphäre von befragten Personen) verpflichtet, daher werden personenbezogene Daten (Adresse oder Name) nie zusammen mit Ihren Angaben der Umfrage verwendet und unter keinen Umständen an Dritte weitergegeben. Wir behandeln alle Informationen streng vertraulich! Wenn die Umfrage abgeschlossen ist, werden Ihre Kontaktdaten gelöscht. Die finalen zusammengefassten Daten der Umfragen sind vollständig anonymisiert; es sind keine Rückschlüsse auf einzelne Personen möglich. Keine Teilnehmerin bzw. kein Teilnehmer ist in den Ergebnissen der Umfrage somit identifizierbar.
>
> Alle für die Teilnahme an der Umfrage relevanten Informationen finden Sie in unserem Informationsblatt. Weitere Details und Projektinformationen finden Sie auf unserer Website. Bei Fragen können Sie uns gern ein E-Mail unter digitize2024@univie.ac.at schreiben.

In addition to this text, also a link leading to detailed information about data protection was provided to respondents (https://digitize.univie.ac.at/umfragen/information/).

5. Data cleaning

5.1. Recoding

Several variables were recoded to align more closely with the structure and content of the variables included in the CSES Module 6 Questionnaire. The original wording and answer options for all variables can be found in the accompanying questionnaire documentation. If a variable has been significantly recoded or altered from its original form, its variable label includes the word "(RECODED)".

The following variables were recoded as described below:

Variable name (original)	**Variable name (recoded)**	**Comments**
SD4	D03	Categories “SECONDARY SCHOOL” and “SPECIAL EDUCATION SCHOOL” were recoded as “ISCED LEVEL 2 - LOWER SECONDARY”. Categories “POLYTECHNIC INSTITUTE” and “VOCATIONAL TRAINING (GER.: LEHRE MIT BERUFSSCHULE)” were recoded as “ISCED LEVEL 4 - POST-SECONDARY NON-TERTIARY”. Categories “VOCATIONAL MIDDLE SCHOOL (GER.: BMS)”, “AHS WITH DIPLOMA”, and “BHS WITH DIPLOMA” were recoded as “ISCED LEVEL 3 - UPPER SECONDARY”. Categories “UNIVERSITY-RELATED COLLEGE” and “COLLEGE” were recoded as “ISCED LEVEL 5 - SHORT-CYCLE TERTIARY”. All other categories were recoded into corresponding category names.
SD9*	D07	Answer options of SD9a – j were used to generate variable D07.
SD30	D07a	Categories “SALARIED EMPLOYEE”, “PUBLIC OFFICIAL”, “PUBLIC EMPLOYEE”, and “FREELANCER” were collapsed into “WHITE COLLAR”. Categories “SELF-EMPLOYED WITHOUT EMPLOYEES” and “SELF-EMPLOYED WITH EMPLOYEES” were collapsed into “SELF-EMPLOYED”. All other categories were recoded into corresponding category names.
SD5	D10	Categories “ISLAMIC RELIGIOUS COMMUNITY” and “ALEVI RELGIOUS COMMUNITY” were collapsed into “MUSLIM; MOHAMMEDAN; ISLAM (NO DENOMINATION GIVEN)”.
SD15 & SD16	D15	Variable has been generated based on nationality of parents (SD15 and SD16).
SD29	D19	Category “MEDIUM-SIZED CITY” was collapsed into “SMALL OR MIDDLE-SIZED TOWN”.
Q110	Q10LHa	
Q111	Q10LHd	Change in value labels.
Q119a	Q14a	
Q119b	Q14b	Change in value labels.
Q134 & Q135	Q27d	

5.2. Pseudonymization

To guarantee that no private information of respondents is provided, open-text responses related to religious denomination and job description were carefully reviewed and, where appropriate, reassigned to one of the predefined closed-answer categories. If a response did not align with any existing category, it was classified as "Other."

Respondents were asked to provide their ZIP code (SD23); however, to protect their anonymity and prevent the risk of re-identification, this information is not included in the SUF. The same holds for the respondent's day of birth (SD32) and month of birth (D01a).

In addition, we recoded the following variables to reassure pseudonymization:

Variable	Variable Label	Original Values	Recoded Values	Comment
D02	GENDER	1 MALE 2 FEMALE 5 DIVERSE 7 REFUSED 9 MISSING	1 MALE 2 FEMALE 7 REFUSED 9 MISSING	Answer option "diverse" collapsed into category "refused".

6. Weighting of data

Weights are calculated for post-stratification adjustment according to known population distributions (listed in Table 1). The weighting variable combines demographic and political criteria (i.e., vote recall for the 2024 election). We provide three weights (a 100% completion rate is defined as having completed the last content question of the survey, which is Q137. For more information on the survey flow, we advise checking the questionnaire.):

- socio-demographic weight for respondents with a 100 % completion rate: **weightSOCDEM1_panel**
  This weight adjusts for all socio-demographic variables listed in Table 1 for all respondents entirely completing the survey (n=1,569). The variable vote recall 2024 is not considered for weightSOCDEM1.

- socio-demographic weight for all respondents: **weightSOCDEM2_panel**
  This weight adjusts for socio-demographic characteristics of all respondents (n=1,683).

- socio-demographic and political weight for respondents with a 100 % competition rate: **weightSOCDEM_POL_panel**
  In addition to all variables of weightSOCDEM1_panel, this weight adjusts for the reported voting behavior in the 2024 Austrian general election for respondents with a 100%-completion rate (n= 1,569). Please note that even among the "completers", the non-response rate for reported voting behavior is 13.96 % (refused), which could result in the weight being inefficient.

PROGRESS ANSWERED QUESTIONS	IN5	N/A	Numeric variable, progress in percentages. This variable is automatically generated by the survey software. A value of 100% indicates that all displayed questions were answered and the survey was officially closed. Please note that this variable does not necessarily reflect actual survey completion. For example, in cases where respondents are screened out due to ineligibility, this variable will still have a value of 100%. Additionally, if a respondent answers all substantive questions but did not officially end the survey after receiving their voucher, this

			variable would have a progress value of less than 100%.

Sehr geehrte Damen und Herren,

wir laden Sie herzlich zu einer neuen *Digitize!*-Umfrage ein!

Sie haben diesmal die Möglichkeit **Ihre Meinung** zu Themen rund um die österreichische Politik zu teilen. In dieser Umfrage werden vor allem **Fragen zur Nationalratswahl am 29. September 2024** sowie zum **aktuellen Zustand der österreichischen Demokratie** gestellt.

Über den folgenden Link gelangen Sie direkt zur Umfrage: {{link}}

Sie können **innerhalb der nächsten 3 Wochen** teilnehmen. Die Umfrage sollte **nicht länger als ca. 15 Minuten** dauern. Als Dankeschön können Sie nach Abschluss der Umfrage einen **5€ SPAR-Gutschein** direkt selbst herunterladen.

Das *Digitize!*-Team ist wie gewohnt für Sie da, falls Sie Fragen haben oder wider Erwarten technische Probleme auftreten sollten.

Ich freue mich auf Ihre Teilnahme und wünsche Ihnen viel Freude an unserer Umfrage!

Sehr geehrte Damen und Herren,

wir laden Sie herzlich zu einer neuen *Digitize!*-Umfrage ein!

Sie haben diesmal die Möglichkeit **Ihre Meinung** zu Themen rund um die österreichische Politik zu teilen. In dieser Umfrage werden vor allem **Fragen zur Nationalratswahl am 29. September 2024** sowie zum **aktuellen Zustand der österreichischen Demokratie** gestellt.

Über den folgenden Link gelangen Sie direkt zur Umfrage: {{link}}

Sie können **innerhalb der nächsten 3 Wochen** teilnehmen. Die Umfrage sollte **nicht länger als ca. 15 Minuten** dauern. **Die Meinung junger Wähler und Wählerinnen ist uns besonders wichtig!** Als kleines Dankeschön bekommen Sie nach erfolgreicher Teilnahme einen **10€ SPAR-Gutschein** zugeschickt.

Das *Digitize!*-Team ist wie gewohnt für Sie da, falls Sie Fragen haben oder wider Erwarten technische Probleme auftreten sollten.

Ich freue mich auf Ihre Teilnahme und wünsche Ihnen viel Freude an unserer Umfrage!

Herzliche Grüße,
