Introduction

This document contains the questionnaire of the "Researcher" Survey that was conducted as part of the EOSC-Pillar H2020 project in fall 2021. The survey is a cross-section study in the five countries Austria, Belgium, France, Germany, and Italy. In addition, this document contains a brief overview of the survey design and a detailed description of the datasets.

Pseudonymization and dropped variables

In order to minimize the risk of identification of respondents, we have taken several precautions and modifications to the dataset in line with best practice examples of how to comply to the GDPR. In more detail, we have taken the following steps: We dropped all open-ended answers before publication as they may contain information that unambiguously identifies respondents and any other variable that was related to the technical aspects from Limesurvey (e.g. seed). Specifically, we deleted the following variables: **submitdate, startlanguage, seed, Dinstother, Dgenderother, CommentCM, lastpage, RusefreqX Rusefreqother, Rreusefreqother, Comment1A, RSourcesX, RSourcesother, EFindX, EFindother, Comment1B, Comment1C, RreusabilityOther, Comment1D, Comment1E, ESErviceX, EServiceother, EServiceEOSCX, EServiceEOSCother, Comment2A, EintercollX, Eintercolother, EinterName, Comment2B, EShareOther, Comment2C, Comment2D, VCloudX, VCloudoth, VFutureX, VFutureother, CommentUnivie, FinalFeedback. Last, we dropped respondents who did not complete the entire survey.**

Added and modified variables

We added the variables doi, version, id, and country. We recoded DDisc to reduce the number of disciplines to 6, Dinstitution was recoded to include all institutions in one variable.

List of Variables and Variable Codes

doi "digital object identifier"

doi:10.11587/D0UMOH

version "AUSSDA archive version"

1.0 (2022-06-07)

id "id variable"

L1 "I agree that my responses can be quoted in reports and research outputs"

- ☐ 1 – No
- ☐ 2 – Yes

country "Country identifier"

- ☐ 1 – AT
- ☐ 2 – BE
- ☐ 3 – DE
- ☐ 4 – FR
- ☐ 5 – IT

DResearcher "Do you perform scientific research?"

- ☐ 1 – No
- ☐ 2 – Yes

DGroup "Survey group"

- ☐ 1
- ☐ 2

DDisc "Discipline"

- ☐ 1 – Agricultural Sciences
- ☐ 2 – Engineering / Tech
- ☐ 3 – Humanities
- ☐ 4 – Medical / Health
- ☐ 5 – Natural Sciences
- ☐ 6 – Social Sciences

Dinstitution "Institutional Affiliation"

- ☐ 1 – Austria-University of Vienna
- ☐ 2 – Italy-CNR
- ☐ 3 – Italy-INAF
- ☐ 4 – France-CNRS-INSU
- ☐ 5 – France-INSERM
- ☐ 6 – France-IFREMER
- ☐ 7 – Germany-Heidelberg University
- ☐ 8 – Germany-University of Hohenheim
- ☐ 9 – Germany-University of Freiburg
- ☐ 77 – Other

DinstotherDum "other Institutional Affiliation"

- ☐ No
- ☐ Yes

Dgender "Please indicate your gender"

- ☐ 1 – female
- ☐ 2– male
- ☐ 3 – prefer not to say

DPrizes "Have you received any grants or awards for your research activities?"

- ☐ 1 – no
- ☐ 2– Yes, institutional or regional
- ☐ 3– Yes, national
- ☐ 4– Yes, European
- ☐ 5 – Yes, international

Dyear "Years working in research"

- ☐ 1 – 0-5
- ☐ 2– 6-10
- ☐ 3– 11-15
- ☐ 4– 16-20
- ☐ 5– 21-25
- ☐ 6 – 26-30
- ☐ 7– 31-35

- ☐ 8– 36 or more

DPhD "Have you completed a doctoral degree/PhD?"

- ☐ 1 – No
- ☐ 2– Yes

Dcareer "Career stage"

- ☐ 1 – First Stage Researcher
- ☐ 2– Recognized Researcher
- ☐ 3 – Established Researcher
- ☐ 4– Leading Researcher

DcareerdriverA—DcareerdriverE: Importance for career success

	very important	important	somewhat important	neutral	somewhat unimportant	unimportant	Don't know

Rreusability1B-Rreusability1CA: Indicate for all following items on FAIRness of data whether you agree or disagree. Data/Material have to...

	strongly agree	agree	somewhat agree	neither agree nor disagree	somewhat disagree	disagree	strongly disagree	don't know
Rreusability1B – conform to the format I need	7	6	5	4	3	2	1	77
Rreusability1B1 – be easily convertible to the format I need	7	6	5	4	3	2	1	77
Rreusability1C – be the product of a credible research institution	7	6	5	4	3	2	1	77
Rreusability1D – be the product of a credible researcher	7	6	5	4	3	2	1	77
Rreusability1E – be consistent or have been verified	7	6	5	4	3	2	1	77

Rreusability1F – be complete (with no or few missing data)	7	6	5	4	3	2	1	77
Rreusability1F1 – have been used by other researchers before	7	6	5	4	3	2	1	77
Rreusability1F2 – have been rarely used by other researchers	7	6	5	4	3	2	1	77
Rreusability1G – be of high-quality	7	6	5	4	3	2	1	77
Rreusability1N – be up-to-date	7	6	5	4	3	2	1	77
Rreusability1O – be used in a publication	7	6	5	4	3	2	1	77
Rreusability1O1 – be used in a highly cited publication/high-impact journal	7	6	5	4	3	2	1	77
Rreusability1O2 – be published in a well-known/ credible repository/database	7	6	5	4	3	2	1	77
Rreusability1Q – be published as a data paper	7	6	5	4	3	2	1	77
Rreusability1U – allow for easy merging/combining with other datasets	7	6	5	4	3	2	1	77
Rreusability1W – contain data/variables in a standardized format (e.g. standardized country codes)	7	6	5	4	3	2	1	77
Rreusability1CA – have been digitized from an analogue form (e.g. digitalization of publications or images, scans of bones)	7	6	5	4	3	2	1	77

EFAIRfamiliar. Familiarity with FAIR Principles

- ☐ 1– very familiar
- ☐ 2 – familiar
- ☐ 3 – not very familiar
- ☐ 4 – not familiar at all

Rreusability2A-Rreusability2BA: Indicate for all following items on FAIRness of data whether you agree or disagree. Data/Material have to...

	strongly agree	agree	somewhat agree	neither agree nor disagree	somewhat disagree	disagree	strongly disagree	77 – don't know
A – be accompanied by high-quality documentation (e.g. codebooks, method reports)	7	6	5	4	3	2	1	77
I – be advertised by data providers	7	6	5	4	3	2	1	77
J – be accompanied by support services (e.g. assistance for	7	6	5	4	3	2	1	77

analysis, methodological courses)								
J1 – be accompanied by a software/code	7	6	5	4	3	2	1	77
K – be accompanied by comprehensive information on data protection	7	6	5	4	3	2	1	77
L – be made available only to the scientific community	7	6	5	4	3	2	1	77
M – be freely accessible to a broader public	7	6	5	4	3	2	1	77
P – be available under a standardized license (e.g. public domain, CC-BY, MIT)	7	6	5	4	3	2	1	77
R – be curated/prepared for publication by professionals	7	6	5	4	3	2	1	77
S – be available under clear terms of use	7	6	5	4	3	2	1	77
T – be easily accessible	7	6	5	4	3	2	1	77
V– be accessible by an API (Application Programming Interface)	7	6	5	4	3	2	1	77
AA – be described in a standardized way (e.g. standardized metadata)	7	6	5	4	3	2	1	77
BA – have persistent identifier (e.g. DOI, persistent URL)	7	6	5	4	3	2	1	77

RattitudeA-RattitudeD: Please indicate for each statement whether you agree or disagree: In my research field…

	strongly agree	agree	somewhat agree	neither agree nor disagree	somewhat disagree	disagree	strongly disagree	don't know
RattitudeA – reusing data/material is encouraged.	7	6	5	4	3	2	1	77
RattitudeB – reusing data/material is supported.	7	6	5	4	3	2	1	77
RattitudeC – reusing data/material is common practice.	7	6	5	4	3	2	1	77
RattitudeD – enough data/material for reuse is available.	7	6	5	4	3	2	1	77

RbehaviourB-RbehaviourA: Please indicate for each statement whether you agree or disagree:

	strongly agree	agree	somewhat agree	neither agree nor disagree	somewhat disagree	disagree	strongly disagree	don't know

RbehaviourB – Reusing data/material helps me accomplish my research goals.	7	6	5	4	3	2	1	77
RbehaviourC – Reusing data increases my chances of achieving research goals.	7	6	5	4	3	2	1	77
RbehaviourD – I have the necessary competences and means to reuse data/material.	7	6	5	4	3	2	1	77
RbehaviourE – Other researchers think that I should reuse data/material.	7	6	5	4	3	2	1	77
RbehaviourF – I intend to reuse data/material in the future.	7	6	5	4	3	2	1	77
RbehaviourA – I like reusing data/material.	7	6	5	4	3	2	1	77

*** Block 2A: Research supporting services ***

EServiceA-EServiceG. How important are the following services for your research?

	very important	important	somewhat important	neutral	somewhat unimportant	unimportant	completely unimportant	don't know
EServiceA – (high-performance) computing services (e.g. CPU, GPU, AI)	7	6	5	4	3	2	1	77
EServiceB1 – long-term data repositories/archives for data/material	7	6	5	4	3	2	1	77
EServiceB2 – short and mid-term storage for data/material	7	6	5	4	3	2	1	77
EServiceC – support for research data management (RDM) including data management plans (DMPs)	7	6	5	4	3	2	1	77
EServiceD – support for publishing data and the necessary preparations	7	6	5	4	3	2	1	77
EServiceE1 – support concerning intellectual property right (IPR) (e.g. copyright, patents)	7	6	5	4	3	2	1	77
EServiceE2 – support concerning data protection/GDPR	7	6	5	4	3	2	1	77
EServiceF – virtual research environments/laboratories	7	6	5	4	3	2	1	77
EServiceG – support for ethics requirements	7	6	5	4	3	2	1	77

EServiceEOSCA-EServiceEOSCG: How important would *more* of the following services be for your research activities?

	very important	important	some what important	neutral	some what unimportant	unimportant	completely unimportant	don't know
EServiceEOSCA – (high-performance) computing services (e.g. CPU, GPU, AI)	7	6	5	4	3	2	1	77
EServiceEOSCB1 – long-term data repositories/archives for data/material	7	6	5	4	3	2	1	77
EServiceEOSCB2 – short and mid-term storage for data/material	7	6	5	4	3	2	1	77
EServiceEOSCC – support for research data management (RDM) including data management plans (DMPs)	7	6	5	4	3	2	1	77
EServiceEOSCD – support for publishing data and the necessary preparations	7	6	5	4	3	2	1	77
EServiceEOSCE1 – support concerning intellectual property right (IPR) (e.g. copyright, patents)	7	6	5	4	3	2	1	77
EServiceEOSCE2 – support concerning data protection/GDPR	7	6	5	4	3	2	1	77
EServiceEOSCF – virtual research environments/laboratories	7	6	5	4	3	2	1	77
EServiceEOSCG – support for ethics requirements	7	6	5	4	3	2	1	77

*** Block 2B: Research in an international context ***

EintercollA-EintercollD: How important is international collaboration in the following areas for your past and current research activities?

	7 – very important	6 – important	5 – somewhat important	4 – neutral	3 – somewhat unimportant	2 – unimportant	1 – completely unimportant
EintercollA – writing joint publications	7	6	5	4	3	2	1
EintercollB – collecting research data/material	7	6	5	4	3	2	1
EintercollC – using data/material collected by others (e.g. repositories)	7	6	5	4	3	2	1
EintercollD – using resources and services from shared research facilities (e.g. computing centers, large-scale equipment, laboratories)	7	6	5	4	3	2	1

*** Block 2C: Sharing data ***

EGenerate Please think about your research activities in the last five years, have you or your core research team generated/collected research data/material?

- ☐ 2 – Yes
- ☐ 1 – No

EShareDummy Please think about your research activities in the last five years, have you or your core team shared data/material for others to use?

- ☐ 2 – Yes
- ☐ 1 – No

EShareA-EShareH: How likely is it that the following reasons stop you from sharing your research data/material?

	7 – very likely	6 –likely	5 – somewhat likely	4 – neutral	3 – somewhat unlikely	2 – unlikely	1 – very unlikely	77 – don't know
EShareA – The desire to further analyse the research data myself.	7	6	5	4	3	2	1	77
EShareB – The time required to prepare my research data for publication (e.g. in a data archive).	7	6	5	4	3	2	1	77
EShareC – My research data is not of general interest.	7	6	5	4	3	2	1	77
EShareD – I am concerned about data protection regulations.	7	6	5	4	3	2	1	77
EShareF – The need to consult with the funding agency or a third party.	7	6	5	4	3	2	1	77
EShareG – That the research data belongs to the funding agency or a third party.	7	6	5	4	3	2	1	77
EShareH – The fear that data will be misinterpreted.	7	6	5	4	3	2	1	77

*** Block 2D: European services ***

EServicesEUA1-EServicesEUD. Do you think that (developing) the following services (would) help your research?

	7 – very important	6 – important	5 – somewhat important	4 – neutral	3 – somewhat unimportant	2 – unimportant	1 – completely unimportant	77 – don't know
EServicesEUA1 – a European, worldwide accessible (meta)data catalogue for research data in ***your*** discipline	7	6	5	4	3	2	1	77
EServicesEUA2 – a European, worldwide accessible (meta)data catalogue for research data for ***all*** disciplines	7	6	5	4	3	2	1	77
EServicesEUB – a European, worldwide accessible catalogue for research supporting services (e.g. training, research data management (RDM) and data management plans (DMP) support)	7	6	5	4	3	2	1	77
EServicesEUC – a European, worldwide accessible catalogue listing available computing centres and their services	7	6	5	4	3	2	1	77
EServicesEUD – a European, worldwide accessible catalogue for available research equipment (e.g. telescopes)	7	6	5	4	3	2	1	77

EEOSCfamiliar. How familiar are you with EOSC?

- ☐ 1 – very familiar
- ☐ 2 – familiar
- ☐ 3 – not very familiar
- ☐ 4 – not familiar at all

*** Block Univie: Research services at the University of Vienna ***
