Dear Madam or Sir,

You are contacted in the framework of the research project within HORIZON-MSCA-2022-PF-01 (Marie Skłodowska-Curie Actions-MSCA Individual Postdoctoral Fellowships 2022), which is financed by the European Research Granting Agency. MSCA is the European Union's reference programme for doctoral education and postdoctoral training.

The main researcher in this project is Dr. Dušan Ristić and the supervisor of the project is Prof. Dr. Georg Vogeler. Project is realized at the *Institut Zentrum für Informationsmodellierung - Austrian Centre for Digital Humanities,* at the University of Graz in Austria. Project title is *Digitalization of Cultural Heritage as Discursive Practice: Mapping the Museums and Citizens-led Initiatives in Graz and Novi Sad* (Grant agreement No. 101109626).

As part of this project, we are interviewing experts from the cultural institutions, namely museums and representatives of non-governmental organizations and civil initiatives in the field of cultural heritage protection and digitalization. We are interested to hear from all of our informants more about their experience, meanings and values assigned to process of digitalization of cultural heritage and its protection. For instance, how they perceive cultural heritage and digitalization, what is the importance of this processes, how people are engaged, what kind of cooperation, projects and networks are formed in the field and so forth.

Criteria for participation in this research will be expertise in the field of digitalization of cultural heritage, in case of institutions. In case of organizations and citizens initiatives engaged with or about cultural heritage (preservation and/or digitalization), their representative will be invited to participate.

Participation in this research is completely voluntary. It means that all respondents agree to participate by their consent and that they have the right to withdraw their consent at any time during the interview or after without any consequences. Your answers throughout the interview are very valuable to us and will be kept completely confidential. No third party will receive any information that would allow you to be identified. Your responses will be collected and saved together with the responses provided by all other participants in the research and your personal data needed for communication (such as e-mails) will be held just for the duration of the project (24 months). Your answers will be used strictly for research purposes related to this project and may be published only in journal articles, book (chapters) or scientific databases in anonymized form.
