REMINDER Media Practices – methodological notes and codebook

Background

REMINDER brings a multidisciplinary approach to understanding free movement in Europe, combining expertise from different fields, including development, economics, linguistics, media studies, political science and public policy. The research methods used in the 12 work packages reflect this broad spectrum of backgrounds and include content analysis based on manual and computer-assisted techniques (traditional media, social media, political party and civil society communications), econometric analysis (cross-sectional and longitudinal data), multi-wave panel survey experiments of public opinion, and qualitative analysis of practitioner experiences, social impacts and mobility decisions, among others.

In particular, the project has two components:

- The nature and impacts of intra-EU mobility: REMINDER assesses the drivers of intra-EU mobility and how EU mobility has affected economies and labour markets in both origin and destination countries. The project also explores the impact of the movement of EU workers for public services and welfare systems designed in different ways.
- Political and media narratives about intra-EU mobility: REMINDER examines how different media portray intra-EU mobility and what factors drive individuals' views on free movement, including narratives used in party political communications and traditional and social media. The project also examines how media narratives on intra-EU mobility differ across Member States.

Work package 11 of the REMINDER project is an analysis of media practices, and the factors that shape them, in the reporting of migration and intra-EU mobility in 9 EU member states. The work package seeks to understand what factors affect the choices made by media professionals in the materials (and therefore frames) that they generate. Specifically, the survey was designed to develop a clearer understanding of the political, commercial, institutional, practical, and technical factors that affect news production and shape media narratives and frames around EU mobility and Third-Country Nationals in different EU countries.

Methodology

The survey consists of a series of semi-structured interviews with 221 media practitioners and sources in the project's core eight Member States, designed to analyse if, and how, differences in the cultures, objectives, and pressures in different news-generating and news-producing environments in EU countries affect the choices of news items reported, and narratives generated, about the subject of migration and intra-EU mobility. The countries chosen represent an economic, geographical and cultural cross-section of the EU: Germany, Hungary, Italy, Poland, Romania, Slovenia, Spain, Sweden and the UK.

In each of the targeted EU Member States, the size and composition of the sample was adjusted to reflect the size and composition of the media in the specific country. The specific media outlets and sources chosen to participate varied from country to country and were selected based on the country's population, their audience reach, and an assessment by local media analysts of their influence in media debates about migration in the countries in which they operate.

Interviewees included those reporting on migration – including journalists, commentators, and high-impact online contributors – and key "sources" feeding stories to those news professionals. The latter included government workers and public relations teams, NGOs and civil society "voices" (activists or spokespeople). A majority of interviews (more than 70%) were with those reporting on migration, while a minority (a little under 30%) were with important "sources". The majority (58%) of fieldwork came from individual interviews, while a smaller share (42%) of participants joined focus groups. However, interviews and focus groups all followed the same structured questionnaire – though journalists and sources, by virtue of their different roles, received slightly different questions.

All participants in face-to-face interviews or focus groups also filled in written questionnaires which addressed additional questions that, in order to keep the duration of the sessions manageable, could not be covered in the conversations.

Interviews with journalists worked to understand their perception of the general "worldview" espoused by the media organisation(s) that they represented, and of the "worldview" of their consumers (i.e. readers, viewers, followers, target media, etc.). Analysis was also undertaken to help answer the following questions:

- What shapes choices of language used to describe migration?
- To which extent do interlocutors believe it is important to distinguish between EU/non-EU migration, and/or do they consider other distinctions more important?
- What do the subjects have in mind when they talk about migration, and what do they think their audiences have in mind?

Another line of questioning addressed the culture and practices of the newsroom or other working environment. This considered factors such as:

- Management style;
- Workforce diversity;
- Deadline pressures;
- Job security and casualization.

This allowed examination of how factors related to the institutional practices and norms of news organisations relate to the tone and approach of these organisations' outputs on EU mobility. It also allowed the team to examine concepts of what constitutes a "good story", as well as the decision-making processes of journalists dealing with EU mobility and migration of third-country nationals in different EU member states. Moreover, it facilitated analysis of the differences between the different media environments across case-study countries.

Interviews with "sources" considered many of the same questions while also asking about overall organisational objectives; approaches to dealing with the press and aims in doing so; reflections on what media wants; and considerations on how media demands affect the production of materials or choice of publications/releases issued (by the source), the tone and content included in them, and the timing of interventions in the press.

In order to elicit the most natural and frank responses and not to exclude any relevant actors, the field work was conducted in the local languages; findings were, however, collected and aggregated in English to enable this analysis. Anonymity was guaranteed to all respondents.

Field work took place in the second half of 2017 and was arranged so as to give predictable special events such as national elections the widest berth possible. Findings were collected in narrative country-by-country reports and coded in a machine-readable format as well.

Practical constraints

Recruitment of participants was undertaken by regional media analysts affiliated to the European Journalism Centre (EJC) (which also provides a publicly accessible database (EJC 2017) of European and third-country media landscapes), Budapest Business School and the University of Oxford. This recruitment was based on an understanding of the media landscapes in these particular countries and an assessment of key actors in media debates about migration. While efforts were made in each country to ensure that the sample represented the full range of media and source types present – as well as political, social, hierarchical and demographic variation with the national media landscapes – the teams faced a number of practical constraints. These include both a limit on the number of participants who could realistically be interviewed, and a lack of any reliable metrics to measure the importance of various media or sources on migration debates in the countries surveyed. Nevertheless, the team had the contacts and credibility to reach out to journalists, sources and newsrooms of all types in all of the surveyed countries.

It was also paramount that all subjects were confident they would remain anonymous and that all markers that might link specific statements to individuals would be removed from any document accessible by third parties.

Participants were offered the choice of participating in focus groups or individual interviews the majority chose individual interviews, but all were asked the same set of questions. Both approaches provided different benefits and limitations, with interviews yielding more detailed and varied statements than focus groups, but focus groups providing a space for participants to challenge and discuss one another's statements.

A key influencing factor affecting this research was the refugee crisis of 2015, which overshadowed all other topics of migration and mobility in several of the sampled countries and thus severely reduced the number of instances when media covered, for instance, intra-EU work mobility. The UK is a notable exception in this respect.

Online survey

On top of the face-to-face field work, an online survey collected information from a much broader selection of countries – namely all 28 rather than only nine EU Member States – in order to cross-check the insights from the face-to-face survey. However, the online survey was not representative. Participants self-selected based on a public promotion campaign via email and the European Journalism Centre's social media channels, and were not screened in any way, nor compared to the profile of the journalism ecosystem in their countries. This led to an equitable rather than proportional mix of nationalities, which covered the entire European Union plus some additional countries.

Of the 238 participants who successfully completed the questionnaire, 83% were journalists, while the rest were representatives from NGOs and academia. Their professional self-identification is generally credible for two reasons: On the one hand, they arrived at the survey from communications that address professional journalists and typically do not spread much into the general online audience. On the other hand, the responses were highly consistent with journalism competence and practice.

The survey achieved a good gender balance, with participants aged primarily 25-54. Broadcast media accounted for 31%, quality newspapers for 42%, online for 36%, and tabloids for 3% of the participants.

The main limitation imposed by the recruitment and self-selection process of participants in the online survey appears to be that it lacks the same breadth of political spectrum that was deliberately sought in the nine-country face-to-face focus groups and interviews. The results, as discussed below, indicate that respondents overwhelmingly held favourable or at least constructive attitudes towards the entire cluster of migration issues. While the findings in the nine-country sample suggest that, indeed, a majority of European journalists perceive themselves in a similar way, the online survey appears to be notably biased in this direction.

Country overview

As discussed above, these two reports look at a total of nine EU Member States. The countries were selected to capture a broad range of geographic, economic and cultural factors represented within EU Member States. The countries were divided into two clusters, one of long-time Member States in Western Europe (EU-15), and another one consisting of post-socialist nations that joined the bloc since 2004 (EU-10). This division was made to accommodate different media and political traditions and experiences.

Germany, Italy, Spain, Sweden, and the United Kingdom represent the "old" Member States – which tend to be countries of destination for both mobile EU citizens and non-EU migrants, while the "new" EU members are represented by Hungary, Poland, Romania, and Slovenia – these countries have, over the last century, tended to be migrant-sending, rather than receiving, countries.

Composition of target group

Participating journalists in the face-to-face survey include

- Reporters: migration, foreign affairs, home affairs, social, economy, human rights
- Senior staff: editors, editors in chief, prominent writers, columnists
- Photo-reporters, freelance investigative reporters, field reporters, video producers

Participating sources in the face-to-face survey include employees and/or speakers of

- Governmental departments, agencies, institutions, MPs and MEPs
- Political parties
- Civil society initiatives and foundations
- Local and international NGOs
- Other opinion makers

EU-15	**EU-10**
Germany: 22 journalists, 13 sources	**Hungary**: 13 journalists, 5 sources
Italy: 28 journalists, 9 sources	**Poland**: 20 journalists, 8 sources
Spain: 17 journalists, 7 sources	**Romania**: 13 journalists, 5 sources
Sweden: 11 journalists, 5 sources	**Slovenia**: 7 journalists, 6 sources
UK: 26 journalists, 6 sources	
Total: 104 journalists, 40 sources	**Total:** 53 journalists, 24 sources

EU Reminder – Focus group questionnaire – Journalists.csv

This table assumes that the CSV is imported into Excel. Fields marked "other" may contain free text.

Column	Content
A	Respondent ID, indicating country, category (journalist or source), and serial number
B	Country of the respondent
C	[single choice] Coded response to face-to-face question 2: "As a journalist, how do you feel that your position is regarded (respected) by people, whose opinion matters to you?" 3 = Valued (overall , people are impressed/I feel important) 2 = Mundane (People don't really comment on it/It's just a job/It's normal/opin 1 = Not valued (overall, people are suspicious or cynical/I feel disliked because c
D-L	[multiple choice] Coded responses to face-to-face question 3: "Why do you do what you do?" 1 = Instrumental: This is just a job, no sense that it is particularly "special". 2 = Creative/interesting: For the creative side or interesting experiences (i.e., wr ing, filming, researching, meeting people). 3 = Social: You like the fun of working with your colleagues or the camaraderie. 4 = Aspirational: This is profession which has excitement/glamour/cachet/I wan be well known 5 = Impact: You want to make a difference in the world 6 = Watchdog: You do this because you believe in holding those in power to account or controlling the power of elites. 7 = Investigative: You believe that people deserve the truth 8 = Ideological: You want to be an instrument of political stability or change. 9 = Other (please specify)

M	[single choice] Coded responses to face-to-face question 4: "When you imagine a typical member of your audience, what characteristics do you think of?" **Politically motivated:** 0 = not mentioned 1 = yes 2 = no
N	[single choice] Coded responses to face-to-face question 4: "When you imagine a typical member of your audience, what characteristics do you think of?" **Political orientation:** 0 = not mentioned 1 = hard left 2 =centre left;
O	[single choice] Coded responses to face-to-face question 4: "When you imagine a typical member of your audience, what characteristics do you think of?" **Social attitude:** 0 = not mentioned 1 = Liberal 2 =Conservative
P	[single choice] Coded responses to face-to-face question 4: "When you imagine a typical member of your audience, what characteristics do you think of?" **Income:** 0 = not mentioned 1 = low income 2 = middle income 3 = high income
Q	[single choice] Coded responses to face-to-face question 4: "When you imagine a typical member of your audience, what characteristics do you think of?" **Age:** 0 = not mentioned; 1 = (young under 40); 2 = middle age (up to 60); 3 = Older (60+)
R	[single choice] Coded responses to face-to-face question 4: "When you imagine a typical member of your audience, what characteristics do you think of?" **Education:** 0 = not mentioned; 1 = basic education; 2 =further education (at least high-school diploma); 3 =university education; 4=post graduate education.
S	[single choice] Coded responses to face-to-face question 4: "When you imagine a typical member of your audience, what characteristics do you think of?" **Gender:** 0 = not mentioned;

	1 = leans towards female; 2 = leans towards male.
T	[single choice] Coded responses to face-to-face question 4: “When you imagine a typical member of your audience, what characteristics do you think of?“ **Type of relationship with media:** 0 = not mentioned; 1 = transactional relationship (customer is buying content mainly because they want information/expertise); 2 = “community” relationship (customer buys this product mainly because they share values with it)
U-Z	[multiple choice] Coded responses to face-to-face question 5: “What’s your professional objective when producing a story?” 0 = don’t know 1 = Commercial rationale (it sells, people want it) 2 = Political rationale (it speaks truth to power/affects policy) 3 = Problemsolving rationale (it identifies a problem that needs to be solved) 4 = helping rationale (improves lives/allows sensible decisions to be made) 5 = other (please specify)
AA-AG	[multiple choice] Coded responses to face-to-face question 6: “What are the building blocks (elements) of a good story?” 0 = don't know 1 = success/achievement (it tells a positive story) 2 = failure/problem (it identified a problem or failure) 3 = “Human interest” (it has an emotional impact on the audience) 4 = Information sharing (it is built around data) 5 = It is unexpected (generates surprise/shock/ is counter intuitive) 6 = Other (please specify)
AH-AM	[multiple choice] Coded responses to face-to-face question 7: “Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your outlet.“ **Reason for migration:** 0 = not mentioned 1 = economic (including high skilled, low skilled work, welfare or any other econ 2 = asylum/refugee 3 = study 4 = family 5 = other
AN-AP	[multiple choice] Coded responses to face-to-face question 7: “Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your outlet.“ **Status:** 0 = not mentioned 1 = legal 2 = illegal

AQ-AZ	[multiple choice] Coded responses to face-to-face question 7: "Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your outlet." **Country of origin:** 0 = not mentioned; 1 = EU; 2 = non-EU; 3 = Africa; 4 = Middle-East; 5 = Asia; 6 = North America; 7 = Central/South America; 8 = Australasia; 9 = other (please specify - if ethnicity rather than country of origin is cited pleas
BA-BG	[multiple choice] Coded responses to face-to-face question 7: "Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your outlet." **Religion:** 0 = not mentioned 1 = Muslim 2 = Christian 3 = Jewish 4 = Hindu 5 = Buddhist 6 = other (please specify)
BH-BL	[multiple choice] Coded responses to face-to-face question 7: "Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your outlet." **Definition:** 0 = not mentioned 1 = length of stay 2 = country of citizenship 3 = country of birth 4 = residence rights
BM-BQ	[multiple choice] Coded responses to face-to-face question 8: "What's the difference between migrants from the EU and non-EU Member States?" **Similarity:** 0 = not mentioned 1 = EU citizens are not "migrants" 2 = EU citizens are MORE like natives than non-EU citizens 3 = no difference between EU citizens and non-EU citizens 4 = EU citizens are LESS like natives than non-EU migrants
BR-BW	[multiple choice] Coded responses to face-to-face question 8: "What's the difference between migrants from the EU and non-EU Member States?"

	Skills: 0 = not mentioned 1 = EU citizens in my country are MORE highly-skilled than non-EU migrants 2 = EU citizens in my country have HIGHER incomes than non-EU migrants 3 = EU citizens in my country are LESS skilled than non-EU migrants 4 = EU citizens in my country have LOWER incomes than non-EU miugrants 5 = no difference between skills of EU and non-EU migrants
BX-CC	[multiple choice] Coded responses to face-to-face question 8: "What's the difference between migrants from the EU and non-EU Member States?" **Education:** 0 = not mentioned 1 = EU citizens are MORE highly educated than non-EU migrants 2 = EU citizens are MORE likely to speak my language than non-EU migrants 3 = EU citizens are LESS highly educated than non-EU migrants 4 = EU citizens are LESS likely to speak my language than non-EU migrants 5 = no difference between education of EU and non-EU migrants
CD-CK	[multiple choice] Coded responses to face-to-face question 8: "What's the difference between migrants from the EU and non-EU Member States?" **Welfare use:** 0 = not mentioned 1 = EU citizens in my country are LESS likely to use welfare benefits than non-EU 2 = EU citizens in my country are MORE likely to use welfare benefits than non-E 3 = no difference between welfare use of EU and non-EU migrants
CL	[single choice] Coded responses to face-to-face question 8: "What's the difference between migrants from the EU and non-EU Member States?" **Other:** Please specify
CM-CU	[multiple choice] Coded responses to face-to-face question 9: "What guides your choice of language when describing migrants or people moving around the EU?" 0 = nothing 1 = I follow guidelines provided by my employer/boss 2 = I follow guidelines provided by another organisation (please specify under "o 3 = I attempt to use technically correct terms 4 = I use my intuition/judgement 5 = I try to be clear/avoid euphemisms 6 = I make efforts to speak in accessible language 7 = I try to use exciting/emotive language 8 = other (please specify)
CV-DF	[multiple choice] Coded responses to face-to-face question 10: "What kind of angle, prespective, context do you use when reporting about <u>EU migrants</u>?" 0 = none 1 = Economic impacts on the native population; 2 = Impacts on national security or crime;

	3 = Economic impacts on the state; 4 = Cultural impacts; 5 = Skills of migrants; 6 = Respect and mutual understanding; 7 = Labour market needs; 8 = Problems in countries of origin; 9 = Discrimination in host countries. 10 = other (please specify)
DG-DQ	[multiple choice] Coded responses to face-to-face question 11: "What kind of angle, prespective, context do you use when reporting about non-EU migrants that are not refugees and asylum seekers?" 0 = None 1 = Economic impacts on the native population; 2 = Impacts on national security or crime; 3 = Economic impacts on the state; 4 = Cultural impacts; 5 = Skills of migrants; 6 = Respect and mutual understanding; 7 = Labour market needs; 8 = Problems in countries of origin; 9 = Discrimination in host countries. 10 = other (please specify)
DR-EB	[multiple choice] Coded responses to face-to-face question 12: "What kind of angle, prespective, context do you use when reporting about refugees and asylum seekers?" 0 = none 1 = Economic impacts on the native population; 2 = Impacts on national security or crime; 3 = Economic impacts on the state; 4 = Cultural impacts; 5 = Skills of migrants; 6 = Respect and mutual understanding; 7 = Labour market needs; 8 = Problems in countries of origin; 9 = Discrimination in host countries. 10 = other (please specify)
EC-EL	[multiple choice] Coded responses to face-to-face question 13: "What is the managerial approach, social environment in your office?" 0 = don't wish to answer 1 = Friendly/collegial: Is your manager a friend and an equal - someone you feel gers? 2 = Encouraging/positive: Is it an environment where you are encouraged by ma 3 = Laid-back/easy going: Are you generally trusted by managers to get on with 4 = Distant/hands-off: Is your contact with management more irregular than yo

	5 = Firm but fair: Is it an environment where mistakes are tackled firmly by management, but t 6 = Micromanagement/close management: Is your work directed or picked-over in unnecessar 7 = Dominant/directive: Are you expected to deliver outputs that include particular types of sp 8 = Aggressive/threatening: Is it an environment where problems, mistakes or other issues resu 9 = Other (please specify)
EM-EX	[multiple choice] Coded responses to face-to-face question 14: "Do you know or think that there is a person, entity, or group outside your newsroom that influences your newsroom (directly or indirectly)? If yes, are there examples?" 0 =no known bodies 1 = Do not wish to comment 2 = perhaps, but do not know who 3 = proprietor/senior (non newsroom) staff 4 = government 5 = opposition politicians 6 = think tanks 7 = foreign governments 8 = the EU 9 = trades unions 10 = advertisers 11 = other (please specify)
EY	[single choice] Coded responses to face-to-face question 15: "Do you feel secure in your job?" 0 = Do not wish to answer 1 = feel very insecure in job 2 = feel a little insecure in job 3 = feel neither secure nor insecure in job 4 = feel fairly secure in job 5 = feel very secure in job
EZ	[single choice] Coded responses to written question 1: "What is your position in the organisation?" 1 = senior 2 = middle 3 = senior
FA	[single choice] Coded responses to written question 2: "Do you manage other journalists?" 1 = yes 2 = no
FB	[single choice] Coded responses to written question 3: "Do you make final decisions about which content is published in your media outlet?" 1 = always 2 = sometimes 3 = rarely 4 = never
FC	[single choice] Coded responses to written question 4: Gender

	1 = female 2 = male
FD	[single choice] Coded responses to written question 5: Age 1 = 20-30 2 = 30-40 3 = 40-50 4 = 50-60 5 = 60-70 6 = 70-80
FE-FF	[single choice] Coded responses to written question 6: Type/format of media outlet you work for 1 = Broadcast (TV, Radio) 2 = Broadsheet/quality newspaper 3 = Tabloid/popular newspaper 4 = Online publication 5 = Several formats 6 = Other (please specify)
FG-FH	[single choice] Coded responses to written question 7: Ownership of media 1 = State/public media 2 = Private media 3 = Other (please specify)
FI-FJ	[single choice] Coded responses to written question 8: Political leaning of your media outlet 1 = Hard right 2 = Moderate right 3 = Centrist 4 = Moderate left 5 = Hard left 6 = Other (please specify)
FK-FL	[single choice] Coded responses to written question 9: Social position of your publication 1 = Liberal 2 = Broadly liberal 3 = Neither liberal nor conservative 4 = Broadly conservative 5 = Conservative 6 = Other (please specify)
FM-FN	[single choice] Coded responses to written question 10: Scale of media distribution 1 = Mainly local/regional 2 = Mainly national 3 = Mainly international 4 = Other (please specify)
FO	[single choice] Coded responses to written question 11: “How important is migration as an issue for you?” 1 = Very 2 = Moderately

	3 = Slightly 4 = Not at all
FP	[single choice] Coded responses to written question 12: "How important is EU mobility as an issue for you?" 1 = Very 2 = Moderately 3 = Slightly 4 = Not at all
FQ-FX	[multiple choice] Coded responses to written question 13: "Please rank each of these options from 1-10 on how well you think it fits with your relationship with newsroom colleagues." 1 = **Close friends**: These are people you like and trust, and would be keen to spend time with outside work. Your friendship matters more than the job. 2 = **Good work friends:** These are people you work with, and enjoy spending time with. You may occasionally socialise outside work, but not really. 3 = **Work friends:** These are people you happily spend time with at work, but you have little interest in social contact outside that. 4 = **Just colleagues:** These are people that you work with, and don't mind, but you wouldn't call them friends. 5 = **People you have to deal with:** These are people you can cope with, but you'd rather get on with work without having to deal with them much**.** 6 = **Competitors:** These are people who would be happy to prevent you from succeeding if it helped them to get where they want to be. 7 = **Threats:** These are people who you are concerned may be actively trying to undermine you and/or your work in order to discredit you. 8 = **Enemies:** These are people who you see as a direct problem, and you would be pleased to see gone. You know that they feel the same as you and that they would work to undermine you**.**
FY	[single choice] Coded responses to written question 14: "Roughly what percentage of your newsroom is female?" 1 = Please give a percentage.
FZ	[single choice] Coded responses to written question 15: "Does your newsroom have any disabled journalists?" 1 = yes 2 = no
GA	[single choice] Coded responses to written question 16: "Does your newsroom have staff from a wide range of social backgrounds, e.g., social class, urban/rural population, regional origins, etc.?" 1 = yes 2 = no
GB	[single choice] Coded responses to written question 17: "Do you think the representation of minorities in your newsroom is more or less than the country as a whole?" 1 = I don't know 2 = yes 3 = no

GC	[single choice] Coded responses to written question 18: "Are you aware of an official diversity policy in your organisation, or any proactive measures to ensure and extend diversity?" 1 = I don't know 2 = yes 3 = no
GD-GE	[single choice] Coded responses to written question 19: "In your newsroom, who makes the decision which stories are to be produced and published?" 1 = I don't know 2 = Beat reporters 3 = Managing/chief editor 4 = Publisher 5 = Someone else (please specify)
GF	[single choice] Coded responses to written question 20: "How often do you use **official press releases** for your reporting?" 1 = Always 2 = Very often 3 = Sometimes 4 = Seldom 5 = Never
GG	[single choice] Coded responses to written question 21: "How often do you use **spokespeople of the government or public authorities** for your reporting?" 1 = Always 2 = Very often 3 = Sometimes 4 = Seldom 5 = Never
GH	[single choice] Coded responses to written question 22: "How often do you use **spokespeople or contacts at domestic NGOs/Think Tanks** for your reporting?" 1 = Always 2 = Very often 3 = Sometimes 4 = Seldom 5 = Never
GI	[single choice] Coded responses to written question 23: "How often do you use s**pokespeople or contacts at international NGOs/Think Tanks** for your reporting?" 1 = Always 2 = Very often 3 = Sometimes 4 = Seldom 5 = Never

EU Reminder – Focus group questionnaire – Sources.csv

This table assumes that the CSV is imported into Excel. Fields marked "other" may contain free text.

Column	Content
A	Respondent ID, indicating country, category (journalist or source), and serial number
B	Country of the respondent
C	[single choice] Coded response to face-to-face question 2: "How is your professional position regarded by people, whose opinion matters to you?" 3 = Valued (overall, people are impressed/I feel important) 2 = Mundane (People don't really comment on it/It's just a job/It's normal/opin 1 = Not valued (overall, people are suspicious or cynical/I feel disliked because c
D-M	[multiple choice] Coded responses to face-to-face question 3: "Why do you do what you do?" 0 = do not wish to answer 1 = Instrumental: This is just a job, no sense that it is particularly "special". 2 = Creative/interesting: For the creative side or interesting experiences (i.e., wr ing, filming, researching, meeting people). 3 = Social: You like the fun of working with your colleagues or the camaraderie. 4 = Aspirational: This is profession which has excitement/glamour/cachet/I wan be well known

	5 = Impact: You want to make a difference in the world 6 = Watchdog: You do this because you believe in holding those in power to account or controlling the power of elites. 7 = Investigative: You believe that people deserve the truth 8 = Ideological: You want to be an instrument of political stability or change. 9 = Other (please specify)
N-U	[multiple choice] Coded responses to face-to-face question 4: “What sort of media do you think influences policy debates in your country?” **Format:** 0 =not mentioned; 1 = Print (newspapers/magazines) 2 = Public broadcast (TV/radio) 3 = Commercial broadcast (TV/Radio) 4 = online only publications 5 = social media 6 = freelance/specialist journalists 7 = other (please specify)
V-X	[multiple choice] Coded responses to face-to-face question 5: “What sort of media do you think influences policy debates in your country?” **Audience:** 0 = not mentioned 1 = popular (includes tabloid newspapers, entertainment shows and other mass cated) 2 = "quality" (includes broadsheet newspapers, serious news shows/documenta
Y-AD	[multiple choice] Coded responses to face-to-face question 6: “What sort of media do you think influences policy debates in your country?” **Political orientation:** 0 = not mentioned; 1 = hard left; 2 =centre left; 3 =centre; 4 = centre right; 5 = hard right
AE-AG	[multiple choice] Coded responses to face-to-face question 7: “What sort of media do you think influences policy debates in your country?” **Social attitude:** 0 = not mentioned 1 = Liberal 2 =Conservative
AH-AM	[multiple choice] Coded responses to face-to-face question 8: “What is your professional objective in communicating with the media?“ 0 = don’t know 1 = visibility/income rationale (raise our organisation's profile/raise funds) 2 = Political rationale (use media to affect policy)

	3 = Problemsolving rationale use media to identify a problem that needs to be solved) 4 = helping rationale (improve lives/allows sensible decisions to be made) 5 = other (please specify)
AN-AT	[multiple choice] Coded responses to face-to-face question 9: “What are the building blocks of a good story?“ 0 = don't know 1 = success/achievement (it tells a positive story) 2 = failure/problem (it identified a problem or failure) 3 = “Human interest” (it has an emotional impact on the audience) 4 = Information sharing (it is built around data) 5 = It is unexpected (generates surprise/shock/ is counter intuitive) 6 = Other (please specify)
AU-AZ	[multiple choice] Coded responses to face-to-face question 10: “Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your organization.“ **Reason for migration:** 0 = not mentioned 1 = economic (including high skilled, low skilled work, welfare or any other econ 2 = asylum/refugee 3 = study 4 = family 5 = other
BA-BC	[multiple choice] Coded responses to face-to-face question 11: “Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your organization.“ **Status:** 0 = not mentioned 1 = legal 2 = illegal
BD-BM	[multiple choice] Coded responses to face-to-face question 12: “Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your organization.“ **Country of origin:** 0= not mentioned; 1 = EU; 2 = non-EU; 3 = Africa; 4 = Middle-East; 5 = Asia; 6 = North America; 7 = Central/South America; 8 = Australasia; 9 = other (please specify - if ethnicity rather than country of origin is cited pleas

BN-BT	[multiple choice] Coded responses to face-to-face question 13: "Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your organization." **Religion:** 0 = not mentioned 1 = Muslim 2 = Christian 3 = Jewish 4 = Hindu 5 = Buddhist 6 = other (please specify)
BU-BY	[multiple choice] Coded responses to face-to-face question 14: "Who counts as a migrant? Please identify key characteristics of migrants in stories produced by your organization." **Definition:** 0 = not mentioned 1 = length of stay 2 = country of citizenship 3 = country of birth 4 = residence rights
BZ-CD	[multiple choice] Coded responses to face-to-face question 15: "What's the difference between migrants from EU member states and migrants from non-EU states?" **Similarity:** 0 = not mentioned 1 = EU citizens are not "migrants" 2 = EU citizens are MORE like natives than non-EU citizens 3 = no difference between EU citizens and non-EU citizens 4 = EU citizens are LESS like natives than non-EU migrants
CE-CJ	[multiple choice] Coded responses to face-to-face question 16: "What's the difference between migrants from EU member states and migrants from non-EU states?" **Skills:** 0 = not mentioned 1 = EU citizens in my country are MORE highly-skilled than non-EU migrants 2 = EU citizens in my country have HIGHER incomes than non-EU migrants 3 = EU citizens in my country are LESS skilled than non-EU migrants 4 = EU citizens in my country have LOWER incomes than non-EU migrants 5 = no difference between skills of EU and non-EU migrants
CK-CP	[multiple choice] Coded responses to face-to-face question 17: "What's the difference between migrants from EU member states and migrants from non-EU states?" **Education:** 0 = not mentioned

	1 = EU citizens are MORE highly educated than non-EU migrants 2 = EU citizens are MORE likely to speak my language than non-EU migrants 3 = EU citizens are LESS highly educated than non-EU migrants 4 = EU citizens are LESS likely to speak my language than non-EU migrants 5 = no difference between education of EU and non-EU migrants
CQ-CX	[multiple choice] Coded responses to face-to-face question 18: "What's the difference between migrants from EU member states and migrants from non-EU states?" **Welfare use:** 0 = not mentioned 1 = EU citizens in my country are LESS likely to use welfare benefits than non-EU 2 = EU citizens in my country are MORE likely to use welfare benefits than non-E 3 = no difference between welfare use of EU and non-EU migrants
CY	[single choice] Coded responses to face-to-face question 19: "What's the difference between migrants from EU member states and migrants from non-EU states?" **Other:** 1 = Please specify
CZ-DH	[multiple choice] Coded responses to face-to-face question 20: "What guides your choice of language when describing migrants or people moving around the EU?" 0 = nothing 1 = I follow guidelines provided by my employer/boss 2 = I follow guidelines provided by another organisation (please specify) 3 = I attempt to use technically correct terms 4 = I use my intuition/judgement 5 = I try to be clear/avoid euphemisms 6 = I make efforts to speak in accessible language 7 = I try to use exciting/emotive language 8 = other (please specify)
DI-DS	[multiple choice] Coded responses to face-to-face question 21: "What kind of angle, perspective, context do you use when communicating to the media about about EU migrants?" 0 =none 1 = Economic impacts on the native population; 2 = Impacts on national security or crime; 3 = Economic impacts on the state; 4 = Cultural impacts; 5 = Skills of migrants; 6 = Respect and mutual understanding; 7 = Labour market needs; 8 = Problems in countries of origin; 9 = Discrimination in host countries. 10 = other (please specify)

DT-ED	[multiple choice] Coded responses to face-to-face question 22: "What kind of angle, perspective, context do you use when communicating to the media about non-EU migrants that are not refugees and asylum seekers?" 0 = None 1 = Economic impacts on the native population; 2 = Impacts on national security or crime; 3 = Economic impacts on the state; 4 = Cultural impacts; 5 = Skills of migrants; 6 = Respect and mutual understanding; 7 = Labour market needs; 8 = Problems in countries of origin; 9 = Discrimination in host countries. 10 = other (please specify)
EE-EO	[multiple choice] Coded responses to face-to-face question 23: "What kind of angle, perspective, context do you usually use when communicating to the media about refugees and asylum seekers?" 0 = none 1 = Economic impacts on the native population; 2 = Impacts on national security or crime; 3 = Economic impacts on the state; 4 = Cultural impacts; 5 = Skills of migrants; 6 = Respect and mutual understanding; 7 = Labour market needs; 8 = Problems in countries of origin; 9 = Discrimination in host countries. 10 = other (please specify)
EP-EZ	[multiple choice] Coded responses to face-to-face question 24: "Who funds your organisation (directly or indirectly)?" 0=don't know 1=don't wish to say/confidential 2=national government/public 3=EU 4=UN or other multilateral governmental organisation 5=foundations 6=NGOs or other advocacy groups 7=political parties 8=business or business lobby groups 9=trades unions 10=other (please specify)
FA	[single choice] Coded responses to written question 1: Gender 1 = female 2 = male

FB	[single choice] Coded responses to written question 2: Age 1 = years of age
FC	single choice] Coded responses to written question 3: "Do you have a management position?" 1 = yes 2 = no
FE	[single choice] Coded responses to written question 4: "Do you make final decisions about which content/information will be communicated to media?" 1 = always 2 = sometimes 3 = rarely 4 = never
FF	[single choice] Coded responses to written question 5: "How important is migration as an issue for you?" 1 = Very 2 = Moderately 3 = Slightly 4 = Not at all
FG	[single choice] Coded responses to written question 6: "How important is EU mobility as an issue for you?" 1 = Very 2 = Moderately 3 = Slightly 4 = Not at all
FH-FO	[multiple choice] Coded responses to written question 7: "Please rank each of these options from 1-10 on how well you think it fits with your relationship with newsroom colleagues." 1 = **Close friends**: These are people you like and trust, and would be keen to spend time with outside work. Your friendship matters more than the job. 2 = **Good work friends:** These are people you work with, and enjoy spending time with. You may occasionally socialise outside work, but not really. 3 = **Work friends:** These are people you happily spend time with at work, but you have little interest in social contact outside that. 4 = **Just colleagues:** These are people that you work with, and don't mind, but you wouldn't call them friends. 5 = **People you have to deal with:** These are people you can cope with, but you'd rather get on with work without having to deal with them much**.** 6 = **Competitors:** These are people who would be happy to prevent you from succeeding if it helped them to get where they want to be. 7 = **Threats:** These are people who you are concerned may be actively trying to undermine you and/or your work in order to discredit you.
FP	[single choice] Coded responses to written question 8: "Roughly what percentage of your newsroom is female?" 1 = Please give a percentage
FQ	[single choice] Coded responses to written question 9: "Does your newsroom have any disabled journalists?" 1 = yes

	2 = no
FR	[single choice] Coded responses to written question 10: “Does your newsroom have staff from a wide range of social backgrounds, e.g., social class, urban/rural population, regional origins, etc.?” 1 = yes 2 = no
FS	[single choice] Coded responses to written question 11: “Do you think the representation of minorities in your newsroom is more or less than the country as a whole?” 1 = I don’t know 2 = More 3 = Less
FT	[single choice] Coded responses to written question 12: “Are you aware of an official diversity policy in your organisation, or any proactive measures to ensure and extend diversity?” 1 = I don’t know 2 = yes 3 = no
FU-FV	[single choice] Coded responses to written question 13: “In your organisation, who makes the decision which messages are to be disseminated?” 1 = Government ministers/political party (please specify) 2 = Head of the organisation 3 = Department head 4 = Myself 5 = Someone else (please specify)
FW-GB	[multiple choice] Coded responses to written question 14: “How often do you target the following media with special information about migration?” 1 = Public broadcast (TV/radio) 2 = Commercial broadcast (TV/radio) 3 = Online media 4 = Tabloids 5 = Individual journalists specialised in the topic 6 = Others (please specify)
GC	[single choice] Coded responses to written question 15: “How often do you popular or quality media in your professional communication?” **Popular:** 1 = always 2 = very often 3 = sometimes 4 = seldom 5 = never
GD	[single choice] Coded responses to written question 16: “How often do you popular or quality media in your professional communication?” **Quality:** 1 = always 2 = very often 3 = sometimes

	4 = seldom 5 = never
GE	[single choice] Coded responses to written question 17: "How often do you use the following strategy to reach out to/inform the media with the messages you want to send to the public?" **Media "stunts" and photo opportunities:** 1 = always 2 = very often 3 = sometimes 4 = seldom 5 = never
GF	[single choice] Coded responses to written question 18: "How often do you use the following strategy to reach out to/inform the media with the messages you want to send to the public?" **Online/viral/social media content (videos, quizzes, etc.):** 1 = always 2 = very often 3 = sometimes 4 = seldom 5 = never
GG	[single choice] Coded responses to written question 19: "How often do you use the following strategy to reach out to/inform the media with the messages you want to send to the public?" **Press conference, with invitation to all the biggest media:** 1 = always 2 = very often 3 = sometimes 4 = seldom 5 = never
GH	[single choice] Coded responses to written question 20: "How often do you use the following strategy to reach out to/inform the media with the messages you want to send to the public?" **Press release sent to the editors in chief of the relevant media:** 1 = always 2 = very often 3 = sometimes 4 = seldom 5 = never
GI	[single choice] Coded responses to written question 21: "How often do you use the following strategy to reach out to/inform the media with the messages you want to send to the public?" **Press release published on the website of the organisation and shared via social media (specify which ones):** 1 = always 2 = very often 3 = sometimes 4 = seldom

	5 = never
GJ	[single choice] Coded responses to written question 22: "How often do you use the following strategy to reach out to/inform the media with the messages you want to send to the public?" **Personal contact with the journalists specialising in your topic, offering on-the- record interviews/statements and/or off-the-record background briefing** 1 = always 2 = very often 3 = sometimes 4 = seldom 5 = never
GK	[single choice] Coded responses to written question 23: "How often do you use the following strategy to reach out to/inform the media with the messages you want to send to the public?" **Other:** 1 = Please specify
GL	[single choice] Coded responses to written question 24: "How important are the following aspects for a good story (about migration)?" **It is about a problem that needs to be solved (such as crime, anti-social behaviour, rules being broken, or people placed at risk)** 1 = Very 2 = Moderately 3 = Neutral 4 = Slightly 5 = Not at all
GM	[single choice] Coded responses to written question 25: "How important are the following aspects for a good story (about migration)?" **It involves conflict of some sort** 1 = Very 2 = Moderately 3 = Neutral 4 = Slightly 5 = Not at all
GN	[single choice] Coded responses to written question 26: "How important are the following aspects for a good story (about migration)?" **It is counter-intuitive** 1 = Very 2 = Moderately 3 = Neutral 4 = Slightly 5 = Not at all
GO	[single choice] Coded responses to written question 27: "How important are the following aspects for a good story (about migration)?" **It is about the direct everyday experience of the audience** 1 = Very 2 = Moderately 3 = Neutral

	4 = Slightly 5 = Not at all
