Austrian Foreign Policy Panel Project (AFP3)

Codebook, English Version

Version 3.0 (Waves 2023, 2024 und 2025)
https://www.foreignpolicylab.at/

Data report overview

The dataset examined has the following dimensions:

Feature	Result
Number of observations	9604
Number of variables	358

You will find all changes from the first (2024) to the second (2025) wave in the questionnaire.

Codebook summary table

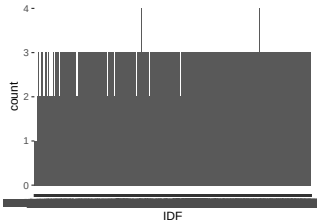
Variable list

resid

- The variable is a key (distinct values for each observation).

IDF

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	5873
Mode	"bk2ebdkn"



- Unique ID for anonymous detection of participants. Difference between total number of participants and observations is due to participants who took part in both waves.

---
