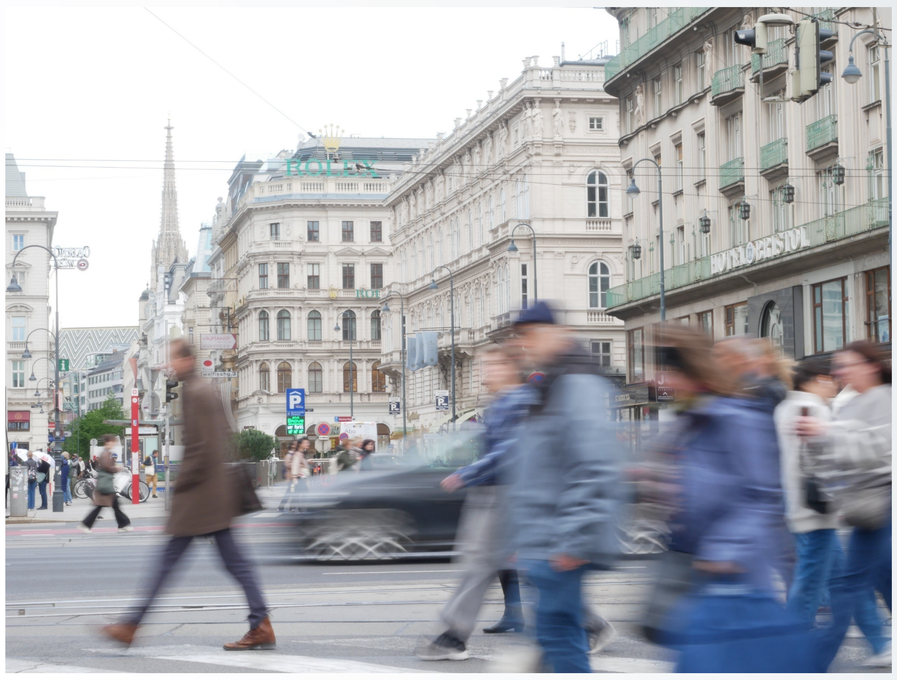
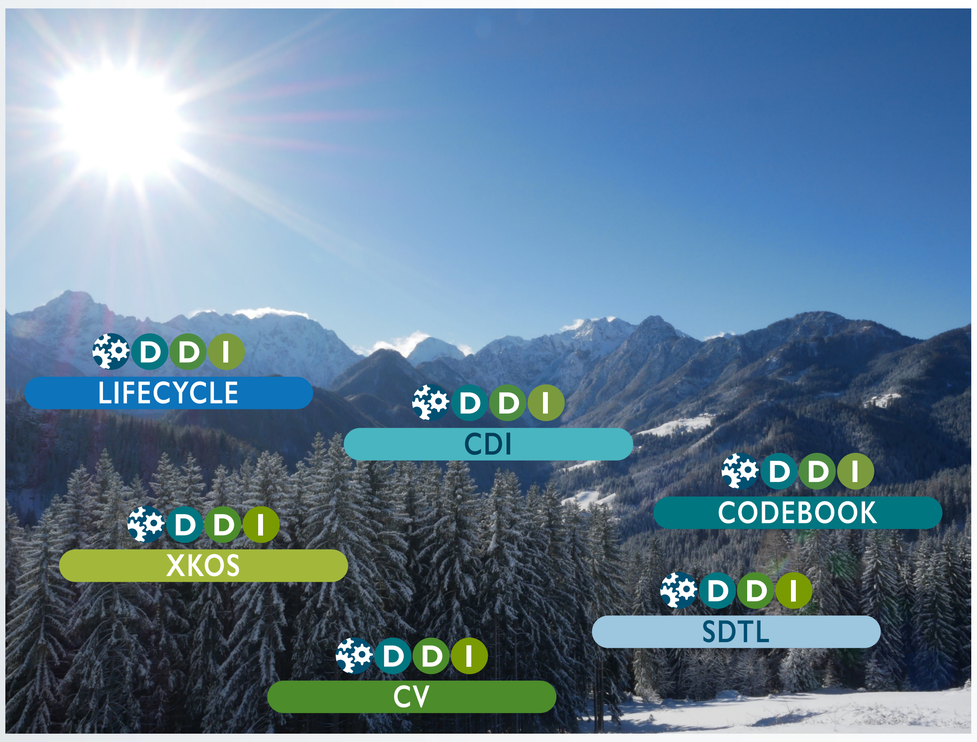
DATA DOCUMENTATION INITIATIVE

Wealth of Metadata with DDI

Research Data Lifecycle

- DDI covers the whole life cylce,
- allows for standardized description,
- enables access for humans and computers,
- and works together with other standards.





DDI Products

- DDI-Codebook for entry-level cataloguing,
- DDI-Lifecycle for reusability,
- Controlled Vocabularies for standardization,
- XKOS for rich conceptual metadata,
- SDTL for provenance, and
- DDI-CDI for integration across disciplinary domains.

DDI Working Groups

- Controlled Vocabularies
- Cross Domain Integration (CDI)
- DDI Developers
- Marketing and Partnerships
- Questions and Questionnaires
- RDF Equivalence
- Structured Data Transformation Language (SDTL)
- Extended Knowledge Organization System (XKOS)
- Training
- Glossary
- Technical Committee
