Overview

This record contains a collection of training reference guides developed as part of the UK Data Service Skills Development for Managing Longitudinal Data for Sharing project, complementing the **Introductory Research Data Management Course - Enhancing Longitudinal Data Sharing course**, delivered by the UK Data Service (UKDS) as part of an initial Population Research UK (PRUK) project. These materials focus on key aspects of research data management, covering anonymisation, documentation, and formatting to ensure high-quality, reusable data.
