IASSIST 2002 ACCELERATING ACCESS

Entering A New ERA : The European Research Area

- **The Fantasy**
  - **Multilingual Access to Data Infrastructures of the European Research Area**
- **The Problems**
  - **Data, information and knowledge are scattered**
  - **Comparative research hampered by language and institutional barriers**
- **The Result**
  - **Single-Nation data, researchers and audience**
  - **Non-development of research processes that integrate and nurture the entire European Research Area.**

Ken Miller
UK Data Archive
University Of Essex

June 11-15, 2002

IASSIST 2002 ACCELERATING ACCESS

Entering A New ERA : The European Research Area

- **The Plan**
  - **Develop an integrated and effective distributed social science portal to facilitate access to a range of data archives and disparate resources.**
  - **Employ a multi-lingual thesaurus to break the language barriers to the discovery of key resources.**
  - **Implement traditional searching of relevant metadata descriptors, thematic Yahoo-style browsing of subject hierarchies, geographical location through a map interface and specialised search for comparative data.**

Ken Miller
UK Data Archive
University Of Essex

Entering A New ERA : The European Research Area

- **The Major Issues**
  - **300 plus elements in the DDI**
  - **Different interpretation of those elements**
  - **Language within and across resources**
  - **Multiple version of the same resource**
  - **Subject classification schemes**
  - **Thesauri and indexing**
  - **Controlled vocabularies on DDI elements**
  - **Geography and Time**
  - **Comparative criteria**

300 plus elements in the DDI

DDI Codebook Outline - Fields		Comment	Recommedation
2.0 stdyDscr+	(ATT == access)	The Study Description consists of information about the data collection, study, or compilation that the DDI-compliant documentation file describes.	
2.1 citation+	(ATT == MARCURI)	Citation for the data collection described by the marked-up documentation. If dataproducer is not the documentation producer, then the "source" attribute should be used to distinguish.	
2.1.1 titlStmt	(ATT ==)		
2.1.1.1 titl	(ATT ==)		Mandatory in the original language
2.1.1.2 subTitl*	(ATT ==)		
2.1.1.3 altTitl*	(ATT ==)		
2.1.1.4 parTitl*	(ATT ==)		Mandatory at least in English (UK)
2.1.1.5 IDNo*	(ATT == agency) (M)		Mandatory
2.1.2 rspStmt?	(ATT ==)		
2.1.2.1 AuthEnty*	(ATT == affiliation) (R)	The person, corporate body, or agency responsible for the data collection's substantive and intellectual content. Repeat the element for each author, and use the affiliation attribute if available	Mandatory (recommended in English)
2.1.2.2 othId*	(ATT == type, role, affiliation)		
2.1.3 prodStmt?	(ATT ==)		
2.1.3.1 producer*	(ATT == abbr, affilation, role)	The producer of the data collection is the person or organization with the financial or administrative responsibility for the physical processes whereby the data collection was brought into existence. Use the role attribute to distinguish different stages of involvement in the production process.	Recommended
2.1.3.2 copyright?	(ATT ==)	Copyright statement for the data collection.	Recommended
2.1.3.3 prodDate*	(ATT == date)		
2.1.3.4 prodPlac*	(ATT ==)		
2.1.3.5 software*	(ATT == date, version)		
2.1.3.6 fundAg*	(ATT == abbr, role)
