SUDEP ❑ or CONTROL ❑

DATE:_____

CASE ID: _____

CONTACT INFO: **CORRECTIONS/CHANGES:**

First, to confirm, are you willing to be re-contacted by us, in case we need more information, to confirm something you said, or to question something we find in your family member's medical records?

What is your preferred mode of contact (email, phone, snail mail)?

And what is your primary home address?

Do you have another phone number, besides this one, that you'd like us to keep on file?

SUBJECT LOG:

What is/was your family member's name?

What is their gender?

And what is your relationship to him/her?

When was he/she born?

What was his/her date of death?

Did you live with him/her in the 6 months prior to his/her death?[yes, no, unknown]

Has his/her case been previously published with regard to SUDEP?[yes, no, don't know]

DEMOGRAPHICS:

How old is he/she OR was he/she when he/she died?[#, decimal if <2 years old]

What is his/her ethnicity? I'll read off a list – please tell me which you consider him/her to belong to:

Approved For Period: 9/6/2018 - 9/5/2019

HTMLDirect ☐ White/European-descent HTMLDirect ☐ Black/African-descent HTMLDirect ☐ Hispanic/Latino HTMLDirect ☐ Middle Eastern

HTMLDirect ☐ Native American/American Indian/Alaskan Native HTMLDirect ☐ Native Hawaiian/Other Pacific Islander

HTMLDirect ☐ Indian/ Pakistani/South Asian HTMLDirect ☐ East Asian/Asian-descent HTMLDirect ☐ Ashkenazi Jewish/Eastern European Jewish

HTMLDirect ☐ Sephardic Jewish HTMLDirect ☐ French Canadian HTMLDirect ☐ Other (_____)

What is the ethnicity of his/her biological father? I'll read off a list – please tell me which you consider him to belong to:

HTMLDirect ☐ White/European-descent HTMLDirect ☐ Black/African-descent HTMLDirect ☐ Hispanic/Latino HTMLDirect ☐ Middle Eastern

HTMLDirect ☐ Native American/American Indian/Alaskan Native HTMLDirect ☐ Native Hawaiian/Other Pacific Islander

HTMLDirect ☐ Indian/ Pakistani/South Asian HTMLDirect ☐ East Asian/Asian-descent HTMLDirect ☐ Ashkenazi Jewish/Eastern European Jewish

HTMLDirect ☐ Sephardic Jewish HTMLDirect ☐ French Canadian HTMLDirect ☐ Other (_____)

What is the ethnicity of his/her biological mother? I'll read off a list – please tell me which you consider her to belong to:

HTMLDirect ☐ White/European-descent HTMLDirect ☐ Black/African-descent HTMLDirect ☐ Hispanic/Latino HTMLDirect ☐ Middle Eastern

HTMLDirect ☐ Native American/American Indian/Alaskan Native HTMLDirect ☐ Native Hawaiian/Other Pacific Islander

HTMLDirect ☐ Indian/ Pakistani/South Asian HTMLDirect ☐ East Asian/Asian-descent HTMLDirect ☐ Ashkenazi Jewish/Eastern European Jewish

HTMLDirect ☐ Sephardic Jewish HTMLDirect ☐ French Canadian HTMLDirect ☐ Other (_____)

Approved For Period: 9/6/2018 - 9/5/2019

Was/is he/she right- or left-handed?[left, right, ambidextrous, unknown]

Did/does he/she attend a special education school or mentally disabled training program?[yes, no, unknown, NA]

***If no**: Was/is he/she ever in a regular classroom where there were special accommodations for a learning disability? [yes, no, unknown, NA]*

***If <16 years old**:*

Was/is he/she in school (at the time of their passing)?[student, other (detail)]

What was/is the highest grade he/she had/has completed?[#]

What about his/her mother? What was the highest level of education she achieved? [GED, high school, some college, bachelor's, associate's, advanced degree, other, NA]

If ≥16 years old:

What was the highest level of education he/she achieved? [GED, high school, some college, bachelor's, associate's, advanced degree, other, NA]

What was his/her employment status?[working now (FT or PT), disabled (permanently or temporarily?), only temporarily laid off/on sick leave/maternity leave, keeping house, looking for work/ unemployed, student, retired, unknown, other]

***If he/she was employed**: To which job classification category did he/she belong? [none, craft worker, official/manager, operative, professional, laborer/helper, technician, service worker, sales worker, administrative support worker, unknown, other (detail)]*

Approved For Period: 9/6/2018 - 9/5/2019

Was/is he/she on disability, or applying for disability?[on disability, applying for disability, NA]

Did he/she ever have his/her IQ tested? [notes]

***If yes**: Do you recall what his/her IQ was?[normal (≥70), 50-69, <50, unknown]*

***If no**: Do you believe his/her IQ to have been normal [≥70] or representative of some degree of mental disability? [normal (>70), 50-69, <50, unknown]*

***If mentally disabled**: would you consider him/her to have (had) mild mental retardation [50-69] or moderate/severe/profound mental retardation [<50]?*

For adults of normal IQ:

What is his/her marital status? [never married, separated, married, divorced, domestic partnership, widowed]

For children and disabled adults:

What is his/her primary caregiver's marital status? [never married, separated, married, divorced, domestic partnership, widowed]

What is the primary caregiver's employment status?[working now, disabled (permanently or temporarily?), only temporarily laid off/on sick leave/maternity leave, keeping house, looking for work/ unemployed, student, retired, unknown, other]

If working, to which job classification category does the primary caregiver belong? [none, craft worker, official/manager, operative, professional, laborer/helper, technician, service worker, sales worker, administrative support worker, unknown, other (detail)]

Was he/she ever diagnosed with any disorders on the autism spectrum, including autism, pervasive developmental disorder, or Asperger's? [autism, PDD, Asperger's, none, other (detail)]

Approved For Period: 9/6/2018 - 9/5/2019

Was he/she able to walk on his/her own or not at all? If able to walk, did he/she require any kind of assistance (e.g. cane, walker)? [ambulatory w/o assistance, ambulatory w/ assistance, non-ambulatory]

Did/does he/she have any significant muscle weakness? [yes, no, unknown]

> ***If yes**: what side was the weakness on and which limbs were affected [left arm, right arm, left leg, right leg, **and/or** other (detail)]?*

Did/does he/she speak? [normal, delayed but verbal, nonverbal]

***If yes**: Did he/she have issues with speech or language comprehension now or when growing up? [normal, delayed but verbal, nonverbal]*

CIRCUMSTANCES OF DEATH: [presumed SUDEP cohort only]

I'm now going to be asking you some questions about the date of his/her passing. This is where some of the questions might be especially sensitive, so please let me know if you'd like to come back to them at a later time or skip any of them entirely.

To begin, would you give me an overview of what happened that day?[notes]

What was the time of death? [00:00] And when was he/she found?[00:00]

And where was he/she when he/she died? [home: bed, home: other, res. facility: in bed, res. facility: other, hospital: EMU, hospital: inpatient ward, in bed elsewhere, other]

Approved For Period: 9/6/2018 - 9/5/2019

Do you know how he/she was positioned when he/she was found? [prone, supine, on side, other (detail), unknown]

Had he/she gone to bed?[notes]

To the best of your knowledge, do you believe he/she was awake or asleep immediately beforehand?[awake, asleep, unknown]

> **If awake:** *What was he/she doing? [exercise, sitting quietly, other physical activity (detail), unknown]*

Was his/her death witnessed?[yes, no]

Was a seizure witnessed around the time of death?[yes, no]

> ***If so**: When?[notes]*

*Was there any evidence of a preceding seizure if one wasn't seen? [no, yes: incontinence, bedding, tongue bite, unusual positioning, blood on pillow, **and/or** other (detail), unknown]*

> ***If yes**: Was this characteristic of their seizures?[notes]*

Was CPR attempted? [yes, no, unknown]

> ***If yes**: By whom? If not EMS/MD: Were they trained in CPR? [EMS/MD, trained bystander, lay person, **and/or** other (detail), unknown]*

Was he/she (home) alone?[yes, no, unknown]

> ***If no**: Was anyone else present in the room when it occurred?[notes]*

Can you remember the medications he/she had taken in the preceding 24 hours, besides his/her usual AED regimen?[detail]

Approved For Period: 9/6/2018 - 9/5/2019

To the best of your knowledge, do you think he/she had taken their seizure medication that day?[notes]

Had he/she recently (within last two weeks) had a fever, infection, or any other kind of illness?[yes, no, unknown]

SUDEP DISCUSSION:

Were you aware of SUDEP beforehand?[notes]

Had SUDEP ever been specifically discussed with you beforehand?[yes, no, unknown]

If yes: *Who initiated the discussion? [you, provider/someone else]*

If provider/someone else*: Who?[neurologist, primary care doctor, nurse/NP, other patients/families, patient groups/support groups, internet, other (detail)]*

Are you appreciative that it was discussed with you?[yes, no, don't know]

What else would you have wanted to know? [detail]

If no:

Do you wish it had been? [yes, no, don't know]

What would you have wanted to know?[detail]

MEDICAL HISTORY:

Do you remember at what age he/she last had a physical exam?[#, decimal if <2 years old]

Approved For Period: 9/6/2018 - 9/5/2019

Can you estimate his/her height and weight?[#]

At what age did he/she develop epilepsy (first seizure)?[#, decimal if <2 years old]

Was/is he/she seizure free in the year prior to his/her time of death/currently? [yes, no, unknown]

***How many different types of seizures did he/she have? Please describe all seizures, including seizures that occurred in the past but not recently. I will be asking you a series of questions on each distinct seizure type. [#]*

For each type of seizure, please answer the following questions, providing as much detail as possible:

a. *How many of this type do you think he/she experienced in his/her lifetime? [0, <10, 10-100, 100-500, >500, unknown, n.b. cluster/status event = one seizure]*
b. *How many of this type have you personally witnessed? [0, <10, 10-100, 100-500, >500, unknown, n.b. cluster/status event = one seizure]*
c. *Approximately when did this type of seizure begin (and end if applicable)? [detail]*
d. *If current: Has there been any change in frequency of this seizure type? [detail]*
e. *What is the first thing you notice when he/she is having this seizure? [detail]*
f. *What happens next (etc)?[detail]*
g. *How long does the seizure last? [<30 sec, 31-59 sec, 1-2 min, 2-5 min, 5-10 min, 10-20 min, 20-30 min, >30 min, variable, unknown]*
h. *Can he/she remember what happens during the seizure?[yes, no, sometimes, unknown]*
i. *How long is he/she respond to you normally during the seizure (hear, comprehend, and react normally [e.g. safely drive a car])? [throughout, >half, < half, never, unknown]*
j. *If not told, do you think he/she would know he/she had this seizure?[yes, no sometimes, unknown]*
k. *How can you tell when the seizure is ending? [detail]*
l. *When it does end, how long does it take for them to return to normal responsiveness? [abrupt, several seconds, several minutes, unknown]*

Approved For Period: 9/6/2018 - 9/5/2019

Seizure Type #____ [write n/a if no additional seizure types].

a. *How many of this type do you think he/she experienced in his/her lifetime? [0, <10, 10-100, 100-500, >500, unknown, n.b. cluster/status event = one seizure]*

b. *How many of this type have you personally witnessed? [0, <10, 10-100, 100-500, >500, unknown, n.b. cluster/status event = one seizure]*

c. *Approximately when did this type of seizure begin (and end if applicable)? [detail]*

d. *If current: Has/had there been any noticeable change in frequency of this seizure type over the last year? [detail]*

e. *What is the first thing you notice when he/she is having this seizure? [detail]*

f. *What happens next (etc)?[detail]*

g. *How long does the seizure last? [<30 sec, 31-59 sec, 1-2 min, 2-5 min, 5-10 min, 10-20 min, 20-30 min, >30 min, variable, unknown]*

h. *Can he/she remember what happens during the seizure?[yes, no, sometimes, unknown]*

Approved For Period: 9/6/2018 - 9/5/2019

i. *How long is he/she respond to you normally during the seizure (hear, comprehend, and react normally [e.g. safely drive a car])? [throughout, >half, < half, never, unknown]*

j. *If not told, do you think he/she would know he/she had this seizure?[yes, no sometimes, unknown]*

k. *How can you tell when the seizure is ending? [detail]*

l. *When it does end, how long does it take for them to return to normal responsiveness? [abrupt, several seconds, several minutes, unknown]*

Notes:

Approved For Period: 9/6/2018 - 9/5/2019

[If the observer is describing a grand mal/convulsion or if this is the last seizure type and they have not described a grand mal/convulsion, ask the following question(s):]

Did he/she have any seizures where he/she would jerk all over and fall over (if standing)? [yes, no, unknown]

a. *If so, which of the following did you observe during some or all of the seizures of this type?*

HTMLDirect ☐ Stiff all over HTMLDirect ☐ Back arching
HTMLDirect ☐ Eyes closed HTMLDirect ☐ Eyes rolled up

HTMLDirect ☐ Turns blue HTMLDirect ☐ Drooling [for those that drool normally, more than usual?]

HTMLDirect ☐ Bloody drool HTMLDirect ☐ Prolonged groan/scream

HTMLDirect ☐ Grunting HTMLDirect ☐ Other noise
HTMLDirect ☐ none HTMLDirect ☐ unknown

b. *How long did the shaking last? [<30 sec, 31-59 sec, 1-2 min, 2-5 min, 5-10 min, 10-20 min, 20-30 min, >30 min, variable, unknown]*

c. *Did you observe any of the following after the seizure?*

HTMLDirect ☐ Goes right into a coma/deep sleep without regaining consciousness first HTMLDirect ☐ Snoring

HTMLDirect ☐ Becomes conscious/interactive immediately

HTMLDirect ☐ Breathing difficulty HTMLDirect ☐ Decreased ability to respond

Approved For Period: 9/6/2018 - 9/5/2019

HTMLDirect ☐ none HTMLDirect ☐ unknown

d. *How long until he/she would wake up and/or be back to normal responsiveness? [<1 min, 1-5 min, 5-10 min, 10-20 min, 20-30 min, >30 min, unknown]*

e. *How long does it take for their breathing to get back to normal? [<1 min, 1-5 min, 5-10 min, 10-20 min, 20-30 min, >30 min, unknown]*

Do you know which of the above seizure types he/she had in the 6 mo. prior to death? If it would help, I can read off your description of the seizure types for you.

HTMLDirect ☐ type 1 HTMLDirect ☐ type 2
HTMLDirect ☐ type 3 HTMLDirect ☐ type 4
HTMLDirect ☐ type 5 HTMLDirect ☐ type 6
HTMLDirect ☐ type 7 HTMLDirect ☐ type 8
HTMLDirect ☐ type 9 HTMLDirect ☐ type 10
HTMLDirect ☐ Convulsive NOS HTMLDirect ☐ Nonconvulsive NOS
HTMLDirect ☐ Other HTMLDirect ☐ Unknown

What about previously – specific seizure types?

HTMLDirect ☐ type 1 HTMLDirect ☐ type 2
HTMLDirect ☐ type 3 HTMLDirect ☐ type 4
HTMLDirect ☐ type 5 HTMLDirect ☐ type 6
HTMLDirect ☐ type 7 HTMLDirect ☐ type 8
HTMLDirect ☐ type 9 HTMLDirect ☐ type 10
HTMLDirect ☐ Convulsive NOS HTMLDirect ☐ Nonconvulsive NOS
HTMLDirect ☐ Other HTMLDirect ☐ Unknown

Do you have any sense of the total number of tonic-clonic seizures (characterized by stiffening of both arms followed by bilateral shaking, loss of posture, often accompanied by a groan or cry) he/she experienced over his/her lifetime? [0, <10, 10-100, 100-500, >500, unknown, n.b. cluster/status event = one seizure]

Approved For Period: 9/6/2018 - 9/5/2019

What about non-convulsive seizures (any seizure types BUT tonic-clonic)? [0, <10, 10-100, 100-500, >500, unknown, n.b. cluster/status event = one seizure]

Any history of nocturnal seizures in the 6 months prior to death? [yes, no, unknown]

If yes: *Were any of these nocturnal seizures GTC's?[yes, no, unknown]*

Any history of nocturnal seizures previously? [yes, no, unknown]

If yes: *Were any of these nocturnal seizures GTC's? [yes, no, unknown]*

When was his/her last known GTC? (excluding the terminal seizure, if there was one) [w/in 1 day of interview/death, 2-7 days, 8-14 days, 14-30 days, >30 days, NA, unknown]

Can you estimate how many GTCs he/she had had in his/her last year? Last three months? [#]

Any change in frequency?[detail]

When was his/her last known non-GTC seizure? (excluding the terminal seizure, if there was one) [w/in 1 day of interview/death, 2-7 days, 8-14 days, 14-30 days, >30 days, NA, unknown]

Can you estimate how many GTCs he/she had had in his/her last year? Last three months? [#]

Any change in frequency?[detail]

***Were you ever told the side of the epileptic focus? [left, right, bilateral, unknown]*

***Were you ever told the cause of his/her epilepsy?*

Approved For Period: 9/6/2018 - 9/5/2019

Did he/she ever have genetic testing done? [yes, no, unknown]

***If yes**: When and where was it done?[for records request]*

***Do you recall the results?(detail)*

Did he/she ever experience status epilepticus (seizures that would not stop on their own, requiring medical intervention)?[yes, no, unknown]

***If yes**: How many times?[#]*

***Which seizure type(s) was it? [generalized, focal, unknown]*

***To the best of your knowledge, did he/she ever experience either apnea, difficulty breathing, or cardiac arrhythmia (irregular heart rate) with his/her seizures?*

***If cardiac arrhythmia, what type?*

HTMLDirect ☐ bradycardia HTMLDirect ☐ asystole
HTMLDirect ☐ atrial fibrillation/flutter
HTMLDirect ☐ superventricular tachycardia
HTMLDirect ☐ ventricular tachycardia
HTMLDirect ☐ ventricular fibrillation
HTMLDirect ☐ arrhythmia NOS
HTMLDirect ☐ other (specify: _____)

***Was he/she ever diagnosed with any particular epilepsy syndrome?*

COMORBIDITIES:

I'll now read off a list of other medical conditions – just stop me and let me know if he/she was ever formally diagnosed with any of them:

HTMLDirect ☐ sleep apnea (if yes: central or obstructive?)
HTMLDirect ☐ sleep disorder
HTMLDirect ☐ near SUDEP (needed CPR after seizure event)

Approved For Period: 9/6/2018 - 9/5/2019

HTMLDirect ☐ near SIDS (e.g. ALTE/stopped breathing) HTMLDirect ☐ depression HTMLDirect ☐ ADHD/ADD

HTMLDirect ☐ syncope (fainting) HTMLDirect ☐ **obesity (**if yes**: current or past? if past: approx. height/weight at the time)

HTMLDirect ☐ asthma

HTMLDirect ☐ rheumatological/inflammatory conditions
(swelling/pain in joints and muscles or bowel inflammation)

- ankylosing spondylitis
- behcet's syndrome
- dermatomyositis
- erythematosus
- inflammatory bowel disease
- siogren's syndrome
- mixed connective tissue disoder
- polymyositis
- rheumatoid arthritis
- sarcoidosis
- scleroderma
- systemic lupus

HTMLDirect ☐ cardiac arrhythmias

- bradycardia
- atrial fibrillation/flutter
- ventricular tachycardia
- arrhythmia NOS
- asystole
- superventricular tachycardia
- ventricular fibrillation

What about other neurological issues?

***If yes**:* HTMLDirect ☐ ischemic stroke HTMLDirect ☐ hemorrhagic stroke HTMLDirect ☐ migraine

HTMLDirect ☐ cerebral vascular malformation HTMLDirect ☐ primary brain tumor (benign)

HTMLDirect ☐ primary brain tumor (malignant) HTMLDirect ☐ MS HTMLDirect ☐ Alzheimer's

HTMLDirect ☐ Parkinson's HTMLDirect ☐ frontal temporal dementia HTMLDirect ☐ lewy body dementia

HTMLDirect ☐ other (specify: _____)

Other cardiac issues?

***If yes**:* HTMLDirect ☐ coronary artery disease HTMLDirect ☐ ischemic dilated cardiomyopathy

HTMLDirect ☐ non-ischemic dilated cardiomyopathy HTMLDirect ☐ mitral valve prolapse

Approved For Period: 9/6/2018 - 9/5/2019

HTMLDirect ☐ mitral valve stenosis HTMLDirect ☐ aortic valve stenosis HTMLDirect ☐ atrial-septal defect

HTMLDirect ☐ patent formen ovale

HTMLDirect ☐ other (specify: _____)

Other respiratory conditions?

If yes: HTMLDirect ☐ chronic obstructive pulmonary disease HTMLDirect ☐ pulmonary fibrosis

HTMLDirect ☐ restrictive lung disease

HTMLDirect ☐ other (specify: _____)

Other psychological conditions?

If yes: HTMLDirect ☐ anxiety HTMLDirect ☐ bipolar HTMLDirect ☐ schizophrenia

HTMLDirect ☐ other (specify: _____)

Did he/she experience any other conditions that I didn't mention above?[detail]

LIFESTYLE:

Did he/she have any history of smoking, alcohol use, or illegal drug use?

If smoking: *active (6 months prior to death/current) smoker?*

how many packs/day (specify #)?

how many years of smoking (specify #)?

Approved For Period: 9/6/2018 - 9/5/2019

If drinking: *active (6 months prior to death/current) drinker?*

how many drinks/week (specify #)?

If drugs: *active (6 months prior to death/current) user?*

what drugs?

How many caffeinated beverages did/do they consume per day? [#]

Was he/she exposed to any second-hand smoke?[yes, no, unknown]

***If yes**: What was the level of exposure? [notes: how often (daily, intermittent, or seldom) and for how many years]*

Did his/her mother drink during the pregnancy? [yes, no, unknown]

Did she smoke during the pregnancy? [yes, no, unknown]

*[**for a child only**] Did he/she sleep in a crib or a bed?[crib, bed, other, unknown]*

How often did he/she share a bedroom? [always/almost always (>90%), often (50-80%), sometimes (10-49%), rarely/never (<10%), unknown]

***If shared**: With whom was it shared? [mother/father, sibling, other (detail)]*

If yes: *Did he/she share the actual bed? [always/almost always (>90%), often (50-80%), sometimes (10-49%), rarely/never (<10%), unknown]*

Approved For Period: 9/6/2018 - 9/5/2019

If shared: *With whom was it shared? [mother/father, sibling, other (detail)]*

Did he/she sleep with a pillow? [yes, no, unknown]

Did you use any kind of video surveillance at night? [yes, no]

What about a baby monitor? [yes, no]

Were any of these in use on the day of his/her passing (e.g. pillow, baby monitor, video surveillance, and/or shared bed/bedroom)?[notes]

FAMILY HISTORY:

Did he/she have any siblings? If yes, how many brothers? How many sisters?

Did he/she have any children? If yes, how many sons? How many daughters?

Did he/she have any maternal aunts? [yes, no] Any maternal uncles? [yes, no]

Did he/she have any paternal aunts? [yes, no] Any paternal uncles?[yes, no]

To the best of your knowledge, have there been any other family members with epilepsy?

If yes: *Relationship of family member(s) to subject?*

Age of onset? [#, decimal if <2 years old]

Approved For Period: 9/6/2018 - 9/5/2019

Epilepsy active currently/at time of death? [yes, no]

Seizure types?

What about a family history of SUDEP?

(if yes) Relationship of family member(s) to subject:

Sudden infant death syndrome/SIDS?

(if yes) Relationship of family member(s) to subject:

Sudden unexpected death of any kind (no known underlying cause, otherwise healthy)?

(if yes) Relationship of family member(s) to subject:

Heart arrhythmias?

(if yes) Relationship of family member(s) to subject:

AED MEDICATIONS:

***Can you tell me the antiepileptic medications that he/she was/is taking at the time of death/currently?*

Approved For Period: 9/6/2018 - 9/5/2019

- ☐ no AEDs
- ☐ ACTH
- ☐ acetazolamide (diamox)
- ☐ benzodiazepine
- ☐ bromide salts
- ☐ carbamazepine (tegretol)
- ☐ carisbamate (comfyde)
- ☐ clobazam (clorepin, frisium)
- ☐ clonazepam (klonopin)
- ☐ clorazepate (tranxene)
- ☐ diazepam (valium)
- ☐ ethosuximide (zarontin)
- ☐ ethotoin (peganone)
- ☐ felbamate (felbatol)
- ☐ fosphenytoin (cerebyx)
- ☐ gabapentin (neurotonin)
- ☐ lacosamide (vimpat)
- ☐ lamotrigine (lamictal)
- ☐ levetiracetam (keppra)
- ☐ lorazepam (ativan)
- ☐ mephenytoin (mesantoin)
- ☐ metharbital (gemonil)
- ☐ methsuximide (celontin)
- ☐ methylphenobarbital (meberal)
- ☐ midazolam (versed)
- ☐ nitrazepam (mogadon)
- ☐ oxcarbazepine (trileptal)
- ☐ paramethadione (paradione)
- ☐ pentobarbital (nembutal)
- ☐ phenacemide (phenurone)
- ☐ phenobarbital (luminal)
- ☐ phensuximide (milontin)
- ☐ phenytoin (dilantin)
- ☐ pregabalin (lyrica)
- ☐ primidone (mysoline)
- ☐ progabide (gabren)
- ☐ rufinamide (banzel)
- ☐ stiripentol (diacomit)
- ☐ tiagabine (gabitril)
- ☐ topiramate (topamax)
- ☐ trimethadione (tridione)
- ☐ valproate (depakote)
- ☐ vigabatrin (sabril)
- ☐ zonisamide (zonegran)
- ☐ other, specifiy:

HTMLDirect ☐ perampanel (fycompa)

Were any of these used as a rescue medication (used PRN/as needed in event of a seizure or aura)?

***If yes**: which was it and how many times was it taken/administered per month?[#]*

Do you have any reason to think that he/she was not taking these medications as directed? Did he/she ever miss pills?[yes, no, unknown, NA]

What about before – can you remember the previous AEDS that he/she tried?[may need to read the list]

Approved For Period: 9/6/2018 - 9/5/2019

- ☐ no AEDs
- ☐ ACTH
- ☐ acetazolamide (diamox)
- ☐ benzodiazepine
- ☐ bromide salts
- ☐ carbamazepine (tegretol)
- ☐ carisbamate (comfyde)
- ☐ clobazam (clorepin, frisium)
- ☐ clonazepam (klonopin)
- ☐ clorazepate (tranxene)
- ☐ diazepam (valium)
- ☐ ethosuximide (zarontin)
- ☐ ethotoin (peganone)
- ☐ felbamate (felbatol)
- ☐ fosphenytoin (cerebyx)
- ☐ gabapentin (neurotonin)
- ☐ lacosamide (vimpat)
- ☐ lamotrigine (lamictal)
- ☐ levetiracetam (keppra)
- ☐ lorazepam (ativan)
- ☐ mephenytoin (mesantoin)
- ☐ metharbital (gemonil)
- ☐ methsuximide (celontin)
- ☐ methylphenobarbital (mebaral)
- ☐ midazolam (versed)
- ☐ nitrazepam (mogadon)

- ☐ topiramate (topamax)
- ☐ trimethadione (tridione)
- ☐ valproate (depakote)
- ☐ vigabatrin (sabril)
- ☐ zonisamide (zonegran)
- ☐ other, specifiy:

HTMLDirect ☐ perampanel (fycompa)

Do you recall when and what the last medication change may have been?

Has he/she tried any other medications (not listed or off-label) or alternative therapies (excluding surgery or diet therapy) to treat seizures? If so, what?

If yes: *When did he/she start (and stop, if applicable) on this treatment/drug?[mm/dd/yy]*

What effects did you notice when he/she started on (and stopped, if applicable) this treatment/drug?

Approved For Period: 9/6/2018 - 9/5/2019

Other notes:

OTHER MEDICATIONS:

Was/is he/she taking any other non-AED medications, such as anti-depressants(SSRIs?), beta blockers, antipsychotics or anything else in the 6 months prior to his/her death/currently?

What about previously (medications taken long-term)?

OTHER EPILEPSY TREATMENT:

Did he/she ever undergo any kind of device implantation to treat his/her epilepsy, such as VNS, DBS, or RNS?[yes, no]

If yes: ***Which device?****[VNS, DBS, RNS, other (detail)****]***

How old was he/she?[#, decimal if <2 years old]

Did he/she ever undergo epilepsy surgery? [invasive EEG electrodes but no resection = no surgery][yes, no]

If yes: *How many different surgeries?[#]*

Surgical procedure name(s)?

HTMLDirect ☐ diagnostic HTMLDirect ☐ anterior temporal lobectomy (ATL)

HTMLDirect ☐ ATL plus HTMLDirect ☐ amygdalohippocampectomy

HTMLDirect ☐ lesionectomy HTMLDirect ☐ lesionectomy plus

HTMLDirect ☐ extratemporal resection HTMLDirect ☐ multi-lobar resection

HTMLDirect ☐ hemispherectomy HTMLDirect ☐ VNS

Approved For Period: 9/6/2018 - 9/5/2019

HTMLDirect ☐ corpus callosotomy HTMLDirect ☐ multiple subpial transection

HTMLDirect ☐ radiosurgery HTMLDirect ☐ therapeutic brain stimulation

HTMLDirect ☐ other (specify:_____) HTMLDirect ☐ unknown

For his/her most recent surgery, what was the surgical procedure?

HTMLDirect ☐ diagnostic HTMLDirect ☐ anterior temporal lobectomy (ATL)

HTMLDirect ☐ ATL plus HTMLDirect ☐ amygdalohippocampectomy

HTMLDirect ☐ lesionectomy HTMLDirect ☐ lesionectomy plus

HTMLDirect ☐ extratemporal resection HTMLDirect ☐ multi-lobar resection

HTMLDirect ☐ hemispherectomy HTMLDirect ☐ VNS

HTMLDirect ☐ corpus callosotomy HTMLDirect ☐ multiple subpial transection

HTMLDirect ☐ radiosurgery HTMLDirect ☐ therapeutic brain stimulation

HTMLDirect ☐ other (specify:_____) HTMLDirect ☐ unknown

How old was he/she? [#, decimal if <2 years old]

Was he/she seizure free for any amount of time after surgery? [yes, no, unknown]

***If yes**: For how long?*

Were there any post-operative complications?

HTMLDirect ☐ aphasia (loss of language) HTMLDirect ☐ anomia (inability to name objs/recognize names of objs)

HTMLDirect ☐ visual field deficit HTMLDirect ☐ hemiparesis (weakness on one side of body)

HTMLDirect ☐ memory deficit HTMLDirect ☐ cranial nerve deficit

HTMLDirect ☐ altered mental status HTMLDirect ☐ herniation syndrome

HTMLDirect ☐ stroke HTMLDirect ☐ psychiatric

Approved For Period: 9/6/2018 - 9/5/2019

HTMLDirect ☐ none HTMLDirect ☐
unknown

Did he/she ever try diet therapy for epilepsy under medical supervision? [ketogenic, low glycemic index, modified atkins, other]

Finally, I would like to confirm permission to request your family member's records and reports. If you have any of his/her medical records in your possession, it would be very helpful to us if you could please send copies to me.

What was the name of his/her internist/primary care physician? Do you have any contact information for this doctor?

Who was his most recent treating neurologist or other physician? What is his/her name?

How long had he/she been seeing this doctor?

Did he/she have any neurologists beforehand?

***If yes**: What were their names? Do you have any contact information for these doctors?*

Which hospitals and facilities was he/she seen at for his/her epilepsy?

Did he/she keep a seizure diary? If so, would you be able to send us a copy?

Did he/she ever have an MRI?

If so, do you recall approximately when and at which facility they were done or which doctor ordered them?

Did he/she ever have an EEG or video EEG?

Approved For Period: 9/6/2018 - 9/5/2019

If so, do you recall when and at which facility it was/they were done or which doctor ordered it/them?

Do you recall which ones (if any) captured seizures?

Was he/she ever evaluated by a cardiologist?

If so, what was the name of the doctor/facility?

What was he/she evaluated for?

Did he/she ever have a EKG?

If so, do you recall when and at which facility it was/they were done or which doctor ordered it/them?

Did he/she ever wear a Holter monitor (24-hour or longer EKG study)?

If so, do you recall when and at which facility it was/they were done or which doctor ordered it/them?

Did you have an autopsy done?

If so, were you told the results, especially the cause of death?

Do you recall the name of the medical examiner and/or the name (usually county) of the medical examiner's office?

Approved For Period: 9/6/2018 - 9/5/2019

At this point, we've reached the end of the interview. I'd like to thank you for taking the time to speak with me today. You've been incredibly helpful.

Again, I just want to emphasize that we will do everything possible to take the information you've given me today, as well as what we find in your family member's medical records, and use it to help identify risk factors for SUDEP and help prevent this tragedy for others. We will keep you posted on any research coming out of the study via a biannual newsletter.

I hope this wasn't too difficult for you. I know that some find it helpful to speak with someone about what they've been through – would you like to be connected with SUDEP support services?

If so: *The SUDEP Institute offers support services and bereavement resources for families who have lost a loved one to SUDEP. All of their services are free of charge. They can be reached by emailing sudep@efa.org, calling 1-800-332-1000 and pressing option 1. You can learn more by visiting their website: www.epilepsy.com/sudep-institute. With your permission, I can also pass on your contact information to them on your behalf.*

We've also been collaborating with SUDEP Aware, an organization based in Canada and dedicated to promoting knowledge and understanding of SUDEP. If you're interested, their website is www.SUDEPAWARE.org, and they can also be reached at 1-855-85-SUDEP(78337) if you'd like any more information and additional support.

And finally, are you interested in helping to financially support SUDEP- and epilepsy-related research?

If so: *Contact FACES at 646-558-0900, or email FACESinfo@nyumc.org for more information.*

Do you have any questions for me? If you have any further questions – today, tomorrow, or weeks from now – please feel free to contact us at 646.558.0818, or at info@sudep-registry.org.

Approved For Period: 9/6/2018 - 9/5/2019
